S. Brewster
761 Upper Ottawa St
Hamilton, Ont
Nov. 30/61

Dear Mr. Low

Your letter to E. S. Ostroff
has been forwarded to me and
I'll answer your questions
first -

Our Centre has not
contributed to any work on Comets
& Meteor searching.

How many would be
interested I don't know but
please send along any proposals

or program that you would
like us to follow & I
will see that a group not
only becomes active but will
contribute faithfully in the
months to come.

We here at Hamilton are
mostly "arm chair" astronomers
but will come to life if
given a little push.

Hope to hear from you
soon.

Sincerely
Stew. Brewster
