DEAR MR. LOW

TO DATE WE HAVE (17) SEVENTEEN OBSERVERS VIEWING ON THE COURT & NOVA SECTION HERE IN HAMILTON. THEY ARE BUSY MAKING MAPS GETTING ACQUAINTED WITH THEIR AREA & THE WEATHER HAS BEEN TOO COLD TO CHASE THEM OUT.

ONLY A NUT WOULD DO SERIOUS OBSERVING IN THIS SUB-ZERO WEATHER & THEY ARE ALL ON THE EXECUTIVE COUNCIL.

I HAVE ALLOCATED A TOTAL OF 31 AREAS & WE HAVE MADE QUITE A FEW BLUE PRINTS FROM AAUSO SOURCES BUT THEY DON'T COINCIDE WITH ALL AREAS.

ENCLOSED ARE MY NEGATIVE REPORTS & A BLUE PRINT SAMPLE. WHEN THE WEATHER BREAKS I'M SURE WE'LL BE SWAMPED WITH REPORTS. I HAVE HAD 100 FORM #2 RUN OFF SO I WON'T NEED ANY MORE FOR A WHILE.

Sincerely,
S. Buntain.

P.S. I DREAMED TONIGHT, WHEN A A.M. SITING WILL COME OVER MY PHONE & BARREL ME OUT OF BED.
