Halifax, N.S.

Mr Jim Low,  
411 Brixton Avenue,  
St Lambert, P.Q.

Dear Mr Low:

No observations were made on Comet Seki but the following have been made on Comet Seki-Lines:

(1) April 4, 1962, 19:40 hours A.S.T., Comet Seki-Lines was 8.5 degrees west and 2.0 degrees below Venus. First magnitude with a 2 degree tail. Seeing was good.

Father M. W. Burke-Gaffney.

(2) April 15, 1962, 20:00 hours A.S.T., Comet Seki-Lines was 5 degrees due west of the Pleiades. Sixth magnitude with a 2 degree tail. Seeing was good. Binoculars 8 x 30 used.

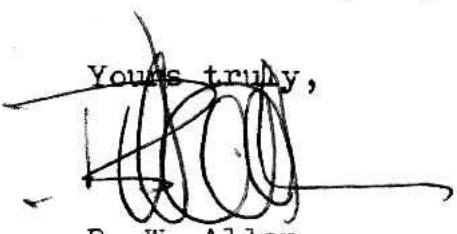

Bert W. Allen.

(3) April 20, 1962, 20:30 hours A.S.T. comet Seki-Lines was 6 degrees above the Pleiades. Seventh magnitude. Seeing was good. Three inch refractor used.

John D. Connelley.

I am reporting this way as we haven't as yet got the forms printed.

~~Yours truly,~~

  
B. W. Allen,

BWA/
