DEAR Jim;

OUR PROGRAM OF OBSERVING HERE SEEMS TO <sup>HAVE</sup> COME TO A SHEDDING STOP. THIS IS SURPRISING IN THAT IT NEVER REALLY GOT GOING.

ENCLOSED IS THE LATEST CONTRIBUTION FROM ONE OF THE MORE ARDENT OBSERVERS.

WE ASSISTED A FEW OF OUR VOLUNTEERS WITH STAR MAPS BUT THIS DIDN'T DO THE TRICK; I'M AFRAID WE'RE JUST ARM-CHAIR ASTRONOMERS.

LISTED BELOW ARE THE PEOPLE WHO VOLUNTEERED & THE ALLOTTED AREAS (REQUESTED IN SOME CASES.)

		AREAS
GORD CRAIG	872 CONCESSION	{ 67/105/293/294/302/303/315/316

I Realize That It Looks Like A Lot of AREAS  
But when Their first AREAS positioned poorly for  
Hewing, I Call Them new AREAS. They at least  
can't do worse with the second ALLOCATIONS.

I still have hopes of getting observing  
contributions from them - myself included &  
By the end of the YEAR we surely will be  
doing better.

Thanks for your letters your job must  
surely keep you busy for on my little  
PART of it this is my TENTH LETTER TONIGHT.

Sincerely,  
Hew. T. Burton
