Dear Mr. Buntain,

Thank you for your letter of June 21, and for the report. Your centre is well ahead of most other centres in the search part of this programme. The Montreal Centre has had a Nova Search programme for several years and it was the experience that many would start on the programme, but only part of them would keep up the work. However, those who kept up with it are reliable and are good observers. So don't be disappointed if many of your observers give up---eventually you will have a steady group of good observers.

Best regards to you and your centre.

Yours truly,

Jim Low
