Dear Jim:

Guess you must have almost given up hope of hearing from me? No, depend on it-- I eventually 'come thru'.

Have only just recently returned home after an absence of  $2\frac{1}{2}$  months! - 10,000 miles later.....

The number of observers seems to have diminished in my absence.

I hope that you have had a good summer. Perhaps you will still be in town for the ALPC meeting?

Regards,

*Doc Youie*
