

411 Brixton Avenue  
St. Lambert, P.Q.  
February 5, 1963.

Dear Mr. Diedrich,

This is further to my letter of October 22, 1962. I understand that you met Miss I. K. Williamson (Asst/Director of Observations of the Montreal Centre of the Royal Astronomical Society of Canada) at the A.A.V.S.O. meeting in October, and she explained the Comet and Nova programme of the R.A.S.C. to you.

Please find enclosed the following things:

- (1). Comet and Nova Search chart of the R.A.S.C.
- (2). C & N forms 1, 2, 3, and 4 which explain the programme.
- (3). Detailed summary of all searches made by R.A.S.C. members during 1962.
- (4). General summary of observations made by observers for each month.

As you can see, the search part of this programme is similar to your Nova Search programme, so I felt that we could coöperate. Please let me know if you have any suggestions that could improve this programme.

Best regards, and I hope to hear from you soon.

Good observing,  
*Jim Low*
