DOROTHY YANE  
 5375 Cumberland Avenue  
 Montreal, Quebec, Canada

Dear Jim:

Herewith are some early reports on Nova and Comet sections. More anon, I hope.

I haven't heard from you in some-time, and particularly re Jack Crossland.

In August you wrote to me saying that you would be in Great Whale River until January.... so I am hoping this will reach you ere long.

Just received your card of Feb.5th!  
 Many thanks. Also in same mail got your reports;  
 ditto " .

Yes, I think the 'Dome' idea might spark additional interest in the program, and too, in getting to know the constellations. Mr.Bridgen is giving a talk on this subject tomorrow night, i.e. constellation study.

My first three paragraphs were written yesterday, but I did not get time to complete my note. I'm glad to have your card at this time.

Best wishes to you from here,

Sincerely yours,

*Dor Yane*
