

411 Brixton Av .
St. Lambert, P.Q.
March 31, 1968

Dear Mr. Matto,

Thank-you for your letter of March 2, and for the numerous reports. Yes, I am back in Montreal, and I expect to attend the General Assembly in May in Toronto. Perhaps I will see you then? I also expect to visit Grand'Mere for the July 20 Solar Eclipse.

I made several observations of the Nova, but have seen Comet Ikeya only once. I expect that you know of the new Comet Alcock 1968 b. Here is a rough ephemeris:

Apr 4	19:10.2	52°01'	7.7
12	18:45.0	54 05	7.3
20	18:04.9	55 55	7.0
Date	P.A.	Dec.	Mag.

Best regards,
