Feb. 23 15:25	5.5
Mar. 2 18:45	5.5
Mar. 6 12:55	5.7

Alan D. Whitman :

Apr. 17	6.7
29	6.8
May 4	6.8
7	6.7
15	7.0
24	7.2
28	7.2
Jun. 1	7.4

By the way, all those observations I sent on May 11 were my own.

I expect more reports during the next few weeks, and I will send reports to you.

Note that Mr Whitman's estimates appear to be a little too bright.

How is Nova Herculis these days? I am busy taking a course in Meteorology now, and have not been able to observe. I have to spend most of my time in Ottawa at a poor location for observing.

Best regards, and Good observing,
