Dear Mr. Morehouse,

I am sorry for the delay in answering your letter of May 21, but I have been very busy lately. I am pleased that you are interested in the Comet and Nova Section, and enclosed are the forms used in this section. These forms should be self explanatory, but if you have any problems with them, please let me know.

Are you an unattached member of the R.A.S.C., or do you belong to the Windsor Centre? My present contact with that Centre is Arthur Rae, Jr., and perhaps you know him.

As you can see, C & N Form No. 2 is the negative search report form, and I will send more to you whenever you ask me. I am out of copies of "Search Area Charts" but you may select your own areas (if you want definite areas) and let me know what the positions of them are (in R.A. and Dec.). I will send you an area chart when I can get more printed.

Best regards, and good observing,

Jim Low
