

THE ROYAL ASTRONOMICAL SOCIETY OF CANADA

252 COLLEGE STREET TORONTO 2B, ONTARIO

24 June, 1963.

Mr. Jim Low,
411 Brixton Avenue,
St. Lambert, P.Q.

Dear Jim Low:

We have a request in from one of our unattached members for the ATLAS ECLIPTICALIS so that he can make a chart of his nova search section.

This Atlas is in our Library but, because of its size, cannot easily be mailed out (and we only have the one copy). Have you any suggestions for him for this work? If Norton's Star Atlas would be adequate, would you let us know or, if not, would it be possible for you to advise him of other sources or any material that you have that would be of assistance to him.

With many thanks,

Yours sincerely,

(Mrs.) Marie Fidler,
Executive Secretary.
