

Jan. 26, 1964.

92 St. Charles Rd.,
Greenfield Park,
Que.

Dear Jim: -

Enclosed are my observations
of Nova Aquillae 1960 and N. Herculis
1963. I could have observed N. Her.
even longer had I not been interrupted
in my observations by sickness. I don't
expect to be able to observe again
until March.

Hoping that you have good
observing.

Yours sincerely,

Frank Morgan
