May 27, 1964

Dear Mr. Dentry,

First, I must apologize for not answering your letter of April 1 sooner. I have been very busy for some time, first of all moving (note the new address above), and then preparing a display for the General Assembly in Ottawa.

I am pleased that you are interested in searching for Comets and Novae and I am enclosing copies of the forms used by this section. Form number 1 explains the programme, form number 2 is the negative report form, form number 3 explains what to do if you discover a new object, form number 4 suggests how to observe comets and novae and form number 5 (2 sheets) shows the positions of the areas. If you require more forms, or if there is something you do not understand, please let me know.

Best regards, and good observing,

Jim Low
