Dear Mr. Diedrich,

Well, I suppose you are wondering what happened to my promise to send you a summary of searches made by members of the Comet and Nova Section! The last report was for January, and I have enclosed the reports for February to May. I shall attempt to be more prompt in the future.

I have had very little time for observing lately. After attending the A.A.V.S.O. meeting in St. Louis, I had to move. Then preparing a display for the Annual General Assembly of the R.A.S.C. kept me busy for a while.

It was a pleasure meeting you in St. Louis, and I hope to see you in Toronto on May 21-24 next year. That is when the A.A.V.S.O. and the R.A.S.C. hold a joint meeting. The R.A.S.C. will be celebrating its 75 th anniversary in 1965.

Best regards, and good observing,

Jim Low, National Coordinator
