

88 Lorne Ave.,
St. Catharines, Ont.
Wed. Dec. 2, 1964.

Mr. James W. A. Lowe,
108 Roy Avenue,
apartment 102
Dowal, P. A.

Dear Sir:

Enclosed are negative search reports
for the month of November 1964.

Only two estimates were made of
Noaa Hercules 1963, as follows:

Nov - 8 - 12^m. 0

" - 14 - 12^m. 0

(not much change here!).

I forgot to mention in my last letter (October reports)
that I made an attempt to locate Comet Everhart 1964~~H~~
on two nights but had no success. I used my 8" f 8
reflector, the same instrument I use for magnitude estimates
of Noaa Hercules 1963.

Thanks for the forms - and best wishes
for the coming festive season,

Hugh W. A. Maclean,
Niagara Falls, ~~Ont~~ Centre.
