Dear Mr. Low:

Enclosed are negative search reports for August 1965. This was a fairly good month compared to the current one - only four nights so far.

The forms which you sent were received in good order - many thanks. The Bulletin of which you remarked has not as yet arrived.

The first I know of Comet de Vico-Swift was the article in Sky & Telescope for Sept. 1965.

It would be very much appreciated if you could arrange a bright comet or two this autumn!

Good Hunting -
