Dear Mr. Bridgen,

Thank-you for your letter of October 28. I am pleased that the Victoria Centre is interested in the Comet and Nova Section. Enclosed are copies of the forms used, and they should be self-explanatory. If there are any questions, please let me know.

I hope to prepare a summary of observations of Comets Ikeya-Seki and Alcock for the next Bulletin of the C & N Section, so if any members of the Victoria Centre made observations, could you have them prepare a summary, please.

Mr. Earl Milton's address is:

Best regards, and good observing,
