Dear Mr. Loo,-

Here are negative search reports for January, Feb. & March, 1966. Better late than never I guess. Blame it on the flu bug which has been haunting me for the past month (on & off).

We had some good nights this past winter, but it seemed there was always a meeting or some other affair ~~is~~ scheduled for those nights. Quite often it had clouded over by the time the meetings were through. Here's hoping we have better luck from now on.

That is about enough "crying the blues".
I trust you have had a good winter.

Best regards.
