Dear Mr. Low, -

Here are negative search reports for May and June, 1967.

My wife and I enjoyed our first visit to Montreal.

Our stay at the University of Montreal was very interesting, - especially meeting members of the R.A.S.C. from across Canada.

I am sorry to have missed seeing, or talking to you after the General Assembly, but it seems we developed "EXPO FEVER"! We would have liked to have spent twice as long at it as we did. It was a wonderful experience.

Best wishes -

Hugh Maclean.
