Sault Ste. Marie, Ontario.

Dear Miss Blauertz,

Ken Chilton informs me that one of your members named Klaus, has been observing Comet Abe. As Chairman of the Comet and Nova Section of the R.A.S.C., I would be interested in having a summary of his observations. Perhaps he could also send copies of a few of his better observations.

Enclosed are forms on the comet and nova section, and although they are out of date, he may find them useful.

Good Observing,

Jim Low
