

Sir Adam Wilson

Nov - 20 - 90

Spalding Crescent

20 Nov 1890

Dear Sir

Will you ask the V.P.  
of the Society & Mr Miller  
at whose house we were  
at the other night - and any  
one else you may think  
would be useful to  
come to my house some  
night soon - as soon as you

please, when the night  
is likely to be good for  
star gazing - and to come  
yourself of course - for  
the purpose of trying and  
testing my telescope -

and be good enough if  
the gentlemen are able to  
come to let me by the  
P.M. of the day <sup>4 hours</sup> they will  
come - and I shall be

very glad to see you all.

After that I will be  
glad to have a meeting  
of the Society - at any  
place if the Members  
can make it convenient.

I did not receive any  
notice of the meeting last  
held - but it makes no  
difference, as I was laid  
up then with a cold  
yours faithfully

- Rowell Esq. | Adam Wilson  
218 Bleeker St
