

CABLE ADDRESS:
ASTRONOMER, SAN FRANCISCO.

LICK OBSERVATORY.

University of California.

Mount Hamilton, Oct 24 1891

My dear Sir,

Your favor in re hon
memb^r of the Ast. Soc. was mislaid,
& should have been answered sooner.
I should consider such a recog-
nition an honor, but I am not
certain that I could do much
in return for the Soc. Just at present
I am getting out a large lot of
copy for the printer, and that with
obnoxious duties, keep me crowded all
the time. Later perhaps I could do

something in my line for you

Sincerely yours
M. P. Dunham
