WAR TAXES

On April 13, 1915, the Special War Revenue Act became effective as follows:

WAR STAMP TAX ON LETTERS AND POST CARDS

A "War Tax" 1c. Stamp, in addition to the ordinary postage, must be affixed to each letter and post card mailed in Canada, for delivery in Canada, the United States, and Mexico; also on letters and post cards mailed in Canada for the United Kingdom and British possessions, or wherever the two-cent rate applies.

Failure on the part of the sender of a letter or post card to comply with the above, such letter or post card will be sent to the dead letter office.

Wherever possible and procurable, stamps on which the words "War Tax" have been printed should be used for prepayment of the "War Tax," but should ordinary postage stamps be used for the purpose they will be accepted.

The "War Tax" Stamp should be affixed to the upper right-hand portion of the envelope or post card. Circulars, catalogues, newspapers, and parcels are not subject to the "War Tax."

WAR STAMP TAX ON CHEQUES, SAVINGS DEPARTMENT RECEIPTS, BILLS OF EXCHANGE, PROMISSORY NOTES, ETC.

Cheques issued on Current Accounts.

Receipts and Cheques issued on Savings Department Accounts.

Bills of Exchange and Promissory Notes delivered to a Bank must have a two-cent Stamp affixed.

The Issuer of a Cheque or Bank Receipt must affix the stamp before payment can be made.

WAR TAXES—Continued

The person who delivers a Bill of Exchange or Promissory Note to a bank must affix a stamp before delivery.

Telegrams and Cables. A "War Tax" of one-cent is to be paid on all Telegrams or Cables.

Express and Money Orders. A "War Tax" of two-cents is to be paid on all Express and Money Orders.

Postal Notes. A "War Tax" of one-cent is to be paid on all Postal Notes.

The Special War Revenue Act also covers Railway, Steamship and Ocean Tickets; Sleeping Car and Parlor Car Tickets; Proprietary or Patent Medicines; Perfumes and Wines.

As the Tax on the above list varies according to the amount involved it is impossible for us to print the clause in detail. All items mentioned are, however, subject to a tax and the purchaser is liable for same.

CUSTOMS TARIFF EXTRA DUTY

On February 12th, 1915, under the Special War Revenue Act the following additional duties were imposed:—

Goods manufactured in Great Britain and imported under the Preferential Tariff subject to 5% in addition to present rate.

All other goods imported from all other countries under the General Tariff 7½% in addition to present rate. This extra duty applies to all imports, except certain articles as enumerated. It is impossible for us to print complete tariff here, reference should be made to special article shown in Customs lists.

January

Monday 1

1917

Cloudy and damp,
thawing slightly during
the day. Municipal elections
took place to-day. C. B.
Robinson got in for mayor.
Didn't get up till nine
o'clock then went down
for the mail. Got a
card from Art. and a
letter from Marcus.
Went over to Miss Buckley
in the afternoon. Heard
her play. Got her to promise
to play at Commencement.
She called again after supper.
She four of us played
bridge till bed time. Decided
to change my school course
slightly.

January

Tuesday 2

1917

Dull and soft. Pulled out at 9.15. Wasn't in time to get the mail so Dad brought me home a card from Etchell. Played on the piano in the morning most of the time. After dinner I started out on a farewell spree before school and walked to Brantford and back. Just got home in time for supper. Made my final decision about Mary Ann's course. It's very much like sitting down after supper. Practiced "Aufschwung". Dound up my foot.

January

Wednesday 3

1917

Still damp, and sloppy. Had to get up at eight o'clock. It was so dark in school that we had to have the lights on most of the morning. Had a meeting in the assembly room and dad introduced Miss Pridham. Tried an exam on "As you like it" in the afternoon with Edith. The picture for the school came and also Miss Bowles. Was deeply impressed and morally affected. Mr. W. Litby called in the evening.

January

Thursday 4

1917

Partly fair and sloppy.
 Nearly all the recent
 sleighing gone now. Very
 little happened except
 that there was school
 and meals as usual.

Took my last-summer's
 working clothes home from
 school after four. Took
 my new picture up to
 my bed-room and drank
 in much of the sweetness
 from it - but of course
 not all - that quality is
 perpetual. Took a box of
 flowers up to Anderson's
 for Addie's funeral, after
 supper. Keel still sore from
 Tuesday

January

Friday 5

1917

Rained all morning
 and was very slushy.
 Went to Addie Anderson's
 funeral in the afternoon
 and was one of the pall-
 bearers. Then went up
 to the cemetery and
 stopped on the way back
 at school. Got my
 books and played on
 the new piano for commence-
 ment. Held this after
 supper. Miss Parshley
 played. Marcus came
 home and was up at the
 school. Spent an hour
 or so in the back
 after yard. Admired my
 little girl

January

Saturday 6

1917

It was cold again. Parthy
 fair and windy. Studied
 a little during the
 morning and in the
 afternoon. Marcus
 came at about half
 past four and came
 up to my room for a
 short while. It was
 then that he let the
 cat out of the bag in more
 ways than one. Gave him
 3.25. Took a bath
 after supper and then
 Enid and I went down
 to a party ^{at} Dr. Byrt's
 Harold Ryall was there.
 Had a good time. Took Helen
 home.

January

Sunday 7

1917

Cold and windy. Didn't
 get up till about 10.00
 o'clock. Went to church
 alone and sat with
 Austin but Dad followed
 late. Wrote to Alfred
 and sat around and
 read about Napoleon
 in the afternoon. Dad
 framed my little friend
 but managed to crack
 the glass - but it didn't
 matter for I can see the
 bright little face just
 the same. Tried to under-
 stand a few articles out
 of the encyclopedia at night
 but failed to do so.

January

Monday 8

1917

It was fair and quite cold. Was pretty sick when I got up in the morning so was in no hurry to get to school. Miss Pridham was away all day. My feet were still very sore and walking wasn't very pleasant. As good luck would have it we had a couple classes in 2nd

Eric came to school in the afternoon. It was awful picking my way up and down the rough jagged ice of the side hill.

January

Tuesday 9

1917

Dull and warmer. Quite sloppy at noon. Marcus Adevey was back at school again in the morning. We were carted all over the school for our classes. The piano tuner came in the afternoon. Marcus came in for a while in after four and we played a bit on the metamorph^{osed} piano. It sounded fine. Didn't get much work done at night as we played cards and Miss Willson called.

January

Wednesday 10

1917

It was snowing hard when I woke up and by noon there was about a foot more snow. It cleared off and was real cold. The sky was fine. Enid went back to Toronto on the 4:45. Had to shovel walks at noon. Miss Pridham still away. Had to do trig. at the board in front of Etobicoke and Marcus. Was in charge of K squad after four we made 5 passibles. Bill made 2 and I made one. Had to oil the guns. Got up my first 25 lines of Virgil.

January

Thursday 11

1917

It was very cold all day. The sky was cloudless making the most sublime winter day. We were still wandering penniles from form to form. The sky being excellent I see no more of Etobicoke except at school. Didn't do hardly any work in the afternoon - just sat around and talked. The frost pretty nearly covered my window at night. Still quite interested in painting but have not attempted any myself yet.

January

Friday 12

1917

Cold in the morning but got more temperate towards night. It also began to snow quite hard but fine. School came off as usual without Miss Pridham. Could hardly hear to do our geometry lesson in second. Did trig. after four then walked down with Marcus. Went up to Marcus's after tea then went down to the shack. Had a pork and bean feed. Had a fine cozy little time. Marcus, Whit. and I signed a Belle

Feb 15/22 - well I'll be glad to say!
 I never dreamed that I would be
 playing my nocturne in G on a Saturday
 grand before some common severs

Had quite a lot of snow to shovel in the morning. The folks were quite cross at my midnight spree and gave me strict orders never to go near the shack again. Studied most of the morning and afternoon. Walked over to the rink but didn't skate. Nearly broke my Belle the Belle Day. But Miss Bowles helped me along my stony path. Practised at thirds and sixths in my nocturne in G.

January

Sunday 14

1917

It was clear and very cold in the morning. Had to shovel all the walks off. Then I went to church with Mrs. Robson. I my nearly froze my ears. Sat around and read, sketched and played on the piano in the afternoon. Marcus called in the evening and we walked up to his place and I read one of his short stories. Said good-bye to Whitby after. Wrote a short note to Alpo.

January

Monday 15

1917

It was very cold all day. The sun was bright so it was a beautiful winter's day. Miss Pridham back to school again also Kathleen & Eva practiced on the piano after four and studied as usual after supper. Miss Wilson & Mrs. Dunton landed so I came down stairs for cocoa and cake.

January

Monday 22

Tuesday 16

1917

Dark with many blizzards
 on the morning. Could
 hardly get to school. There
 was only a band full
 there the best I saw.
 I had to shovel snow
 at noon. Went back a
 few minutes early to
 do a french exercise
 then stayed a while
 after four to do an
 hour's real hard
 work, just happened
 to be looking up as
 Etoile passed well weaned
 up Gota letter from
 Norma. Virgil and
 Mech. at night.

usual!

January

Wednesday 17

1917

Still clear and wintry.
 It was quite windy all
 day making great
 drifts. Went early to
 study French but was
 hindered by the usual
 mess of girls in fourth.
 Had shooting after
 four. I was boss
 again. Dad went
 shoe shopping after tea.
 Worried all evening
 over Algebra.

January

Thursday 18

1917

Cloudy but still cold. Also very windy with snow-flurries. Took an old pair of boots down at noon to get half-soled. Walked up as far as Adeney's after four and called in a while and decided our key-board scheme was a failure. Discussed Ruth and such topics. Then went down town and got my boots. Packed on the heel caps after supper and then did Virgil.

January

Friday 19

1917

Partly fair and cold. More snow flurries at night. Stayed at school for quite a while translating Virgil. Walked around by Selfer's going home and saw Etwile leave for home, which knocked all my plans for the evening on the head. Went up to Adeney's about 8.00 P.M. and found Marcus sick with the grippe. Came home and had a little practice before going to bed.

January

Saturday 20

1917

Cloudy but cold.
 Didn't get up very
 early. Studied in
 the morning. Dad
 and Mrs. P. went to
 Brantford in the after-
 noon to get paper
 for the Hall and some
 Carbor. I accordingly
 was left alone and
 tried to do a little
 studying. Fed the hens
 and got bathed about
 five o'clock. Went to
 the rink after supper
 and had a great skate
 with Elma and took
 her home. She spoke of Etude

January

Sunday 21

1917

Very windy and
 blustery with some more
 snow. Went to
 church in the morning
 and then wrote letters
 to Alfred and Arthur
 in the afternoon.
 Read up about
 painters and studied
 "Blames thou art"
 after supper.

January

Tuesday 16

~~Monday 2~~

1917

Clear and cold. The lab was all in a mess as the janitor let the pipes freeze so we had to take our long line of notes on the paper board family in 200m. iv. Got a letter from Art. Taylor from Obareham by sea. Went down to the rink after four and played half a game of hockey for P.H.S. P.P.S beat us all hollow 6-1. Worried and worried over a trig question at night and at last got it.

January

Tuesday 23

1917

Not very cold during the day but very cold and clear at night. School as usual. Had a meeting of the red cross society of the P.H.S. after four. Went over to the rink after four and about five and watched a second game between P.H.S & P.P.S. They beat again 1-0.

January Wednesday 24 1917

Still cold and bright.
Most glorious winter
weather. Marcus still
sick with the grippe.
Had shooting after
four - I made 24
+ 2 - 2. Then
called around at
the library and
saw E. but didn't speak
to her only asked for
Punch. Couldn't do
either my algebra or
Virgil at night.

January Thursday 25 1917

Cold and bright.
Mrs. Robson went
to Brentford in
the afternoon to see
about wall paper.
I walked down to the
trolley station with
her. Then walked
up with Ruth P.
Marcus was back
to school again.
Went to the opening
meeting of the music
society at night.
Heard Chopin's
ballade in G minor
rather spasmodically
rendered. *(spasmodically)*

January

Friday 26

1917

Very cold all day and cloudless. A lovely January sun streaming in the lab. all morning. Walked up with Elma to day's noon and down with myself. Called at Marcus' to arrange for to-morrow night. Bus was quite playful and began to get acquainted with me. Did my Vergil like a good boy at night.

Poor "Bus" alias Daxon Peter. R.I.P. Jan 29/12

January

Saturday 27

1917

Cold with an East wind and quite a lot of snow. Did a little french in the afternoon and then went down and got my hair cut. Went home and took a bath. After supper I did a little more french and then Marcus called. We went up to their place and stayed there about an hour. After I went to the rink but didn't take anyone home.

January

Sunday 28

1917

Dull but cold. Went to church in the morning. They still held it in the basement for want of coal. Sat around the house all afternoon and read Zoology.

Introduced myself to Mr. Charles Darwin at night. Was feeling rather rotten on going to bed.

Well, well - I am rereading Voyage of the Beagle now

January

Monday 29

1917

Was quite sick but managed to get around in time for school. It was very soft dull and rainy. Diggled all day, but Etoids was there so everything wasn't wrong. Cleaned out the chicken pen at noon it sadly needed it. Was about five minutes later in the afternoon. Came right home after four and practiced Schumann No. 2, studied and dozed after supper.

God boy! - I will practice Schumann tonight, also. AN 29/67

January

Tuesday 30

1917

Feeling all right again. It was very clear and quite mild - the snow ran in all directions. It froze a little at sundown. Didn't do hardly any work all day at school but studied more or less and irregular french verbs and frogs at night. Met Etude on the street. All passions wax and wane - mine does everything at once. Looked long at my sweet little girl.

January

Wednesday 31

1917

Cloudy and freezing all day. Had four hard exams in alg., zoology, French C. & Latin C. Did all right in the means but the extremes were horrible. Had shooting after four. Made a passible. Grigg made 5. Explored the vast unknown with a candle. After practicing a little I did Virgil. I papered part of the hall in the afternoon.

February

Thursday 1

1917

Snowy and cold. Very cold at night. Got 41 in algebra and 75 in French. Nothing much doing at school. Marcus made a passible in science.

Pa finished papering the hall. Had Vigil at night and then pondered over my birthday-book question.

February

Friday 2

1917

A very miserable day although the bear saw his shadow. Went to the rink at night it was very cold. Took Mrs. Bridham for a skate. Marcus went with me.

February

Tuesday 6

1917

Back to school
again. Very cold
and windy. Marcus
gave me a book of
verbs to practice a
bit. Got a money
order off the thespiatric
society and searched
around in vain for the
"Immortals"

February

Wednesday 7

1917

Still wintery. School
 as usual. Etoile
 stayed at school for
 dinner so I went back
 early to "study"? Was
 quite at my wits end
 to know whether she
 had changed her
 mode of life or not.
 Had shooting after
 four. Made 25 again.
 Homework at night.
 Of which I did about
 one third.

February

Thursday 8

1917

A fine snow fell
 nearly all day and
 it was cold. Worked
 hard at algebra but
 made no headway.
 Started "Le voyage
 de Monsieur Perrichon".
 Marcus called in
 after four and played
 a little for me.
 He showed me two
 sheets of interesting
 reading matter.

February

Friday 9

1917

Very cold and bright.
 A most glorious winter's
 day. Made a great
 effort and got some
 memory ready for
 literature. I have
 covered half my
 Virgil, thank the Lord.
 Went into Macomber's
 and picked out some
 records for our
 meeting on Monday.
 The girls played
 B.C.D. at night. See
 He-1. In favor of B.C.D.
 Etouille was there.

February

Saturday 10

1917

Very cold - 6 below
 at 9.30 A.M. Studied
 a bit in the morning
 and in the afternoon.
 Took a bath about
 five as usual. Went
 up to Marcus's and
 got him to go to the
 rink. It was very
 cold but I had
 my sweater coat.
 Walked home with
 Miss Pridham.

February

Sunday 11

1917

Still very cold.
Went to Church in
the morning. Read
history and wrote
to Alfred after
dinner. Practiced
trips up at a device
after supper.

February

Monday 12

1917

Somewhere between
twenty and twenty-five
below in the morning.
The school was fairly
warm, however.
There was a meeting
of the P. H. S. Patriotic
Society. Mr. McCammon
brought up his
New Edison. There
were several
recitations. Had my
supper over at the
church.

February

Tuesday 13

1917

Cold and dull.
Norma and I
exchanged birthday-
book formalities.
Went to the rink at
night. There was
an awful crowd
there. Carnival night.
Had a good skate.

February

Wednesday 14

1917

Had shooting
after four. Only
made 20. Got
nothing much done
after supper as
was very sleepy.

February

Thursday 15

1917

Milder but still bright. Nothing much doing anywhere. Wrote a letter to Waterland. Practiced on the piano after four.

February

Friday 16

1917

A lovely day. Had an exam in Geometry after recess. Went into second. at 11.30 - bless the luck. Practiced after four and after supper. A delegate for the conference at Paris came at about 10.0'clock to spend the week end at the house.

February

Saturday 17

1917

Very warm and bright. A great lot of the snow melted. Hung around the house trying to do a little studying and practicing. Marcus left a note saying that the second tier was off. Went up to school to get a Botany. Went to the show with Joe. Crawled up the snow to sleep in bank concert. Did a little French after that.

February

Sunday 18

1917

Rather cold again. Went to church again in the morning heard Mr. Huttenson preach. Wrote a letter to Whitney. Went down to the "Y" and heard a lecture from four to half past five. Went for a walk with Marcus after supper. Talked about Joe etc. Presented my first visitor to my dear little ~~girl~~ girl.

February

Monday 19

1917

School again. Everybody
feeling "good" after the
conference. Nothing
much doing at school
except my literature
class in second before
which I make ample
preparation. It was
dull and there was
an east wind and
much sleet.

Very dry and cold
with light snow fall.
Went to church in
the morning. Had
a pretty bad cold
all day. Thought
quite a lot of little
Miss Wells. Went
for a delightful
walk with Marcus
after supper. He
actually mentioned
"Etole's" name.

February

Monday 26

1917

Had a thunder storm
last night and it
was warm all day.
The snow ran fast.
It cleared off last
night. I have
decided that there is
nothing sweeter than
a little girl's smile.
Mrs. Woods our
neighbor died last
night.

February

Tuesday 27

1917

Bright and warm. A little water came in the floor of the chicken house but not much. I scraped out the straw at noon. Fixed Latin and French cutters in the afternoon. Sat in Marcus's seat in second. Did rotten on the exams. Marcus sick. Walked down with Bill. Didn't do anything after supper but write a couple letters and go to sleep over some vergil.

February

Wednesday 28

1917

Exams all day in Chem, Mech. Trig & History. It was a lovely day. Gave my birthday book to Rhena to pass around. Marcus was sick.

March

Thursday 1

1917

Another beautiful day. Got my book back all decorated up with pretty names. Etoile's especially. Went up to see mancers after four. Read up a bit on sculpture.

March

Friday 2

March

Friday 23

1917

A dull rainy day with a high wind and thunder at night. Dad got word that Aunt Rhoda had a cancer and was not likely to get better. Worked alone with Myrtle in the lab and passed her some good things. We get along pretty well. Everything is going smoothly so far. Did some Alg & French at night.

March

Saturday 24

1917

As soon as I make the slightest boast the enjamy is sure to strike hard right after. It was a clear windy cool day. Did more or less studying in the morning went up to school and studied Latin & French in Ettil's seat. I tried hard but didn't see anything of M. so I suffered for it at night.

March

Sunday 25

1917

A most glorious day. A nice wind but quite warm. The tith was exceptionally high. Went across the golf-bridge after. Went to Church in the morning up stairs for the first time. Went to S. S. Saw all I wanted to see but received no 'sourires'. Was not inspired. Tried to take walks but nothing doing.

March

Monday 26

1917

One of the most beautiful spring days yet. The rivers were still very high. School was rather asleep. Had cadet drill in the morning. Had a bit of glass-bottle shooting in warden's back yard after four. I'm still wondering whether to buckle to it or not. Saw the dearest little person in blue, little hat and all - at noon. The good old bridges were strong - bless them & her! Restored my documents.

Studied in the morning. It was cold and fair. Put up my bird house in the last half of the apple tree after dinner. Then studied a wee scrap more. Fixed the catch on my door. Took a cold, windy, nasty, futile bicycle ride up to the junction. A dear little girl by the name of Jean Mc Knight had supper with us. Nothing doing after supper for me so went to bed early.

April

Tuesday 10

1917

Cloudless and a bit warmer. Tried to find out what Simon did and said in the morning. Wheeled out to Morrison's and exchanged wheels in the afternoons. Had an enjoyable ride but saw no little nitches either going or coming. Dad came home on the 7.05. Brought me an umbrella. Read upon the Catholic reformation for a while before going to bed.

April

Wednesday 11

1917

Rain and a little warmer. Staggered through about 12 lines of Vergil in the morning. Took some history papers down to Edith in the afternoon. Uncle Albert came on the 7.05. We played cards and anxiously watched the incubator in the evening. Put up a kind of a fight but it was more good luck than will power, but I came out all right.

April

Thursday 12

1917

Dull and very chilly again. Took a walk with dad and Uncle Albert around town. Uncle Albert went away on the 14th. Got a basket of sand for dad. Tried to do a vigil but went to sleep. Woke up at supper time. Went to the musical club at night. The tempo was 43. 247. But it had no audible effect on Miss B's playing.

Saturday 14

1917

Didn't get up till about 9.10. Was pretty sleepy and had a sore throat so did not study very vigorously. Went up to school at about five and got the pump. Had to pick ~~my~~ way through the office window. Then went as far as Keg for school. La chère sacré me was practically deserted. It began to snow cheerlessly. M. called and we went to the show.

April

Sunday 15

1917

About two inches of snow in the morning. The day was dull and cold and the snow was slow in melting. Went to Dan McJannet's before church to see if the eggs had come, but they hadn't. Went to church. Pa up in the choir. Mrs Ranton spoke on the W. M. S. Went to S. S. Mrs Pridham was here for dinner. Called on Mrs Puckley after S. S. Went down to the Bank with J. and M. after tea.

(May 1957)

40 years ago! How I remember Jim meeting me at Robertson's car stop. She walk up the lane and the steep hill over the fresh grass. She introduced to the charming little family - Jack & Betty & George & How I loved the natural beauty of the place. She cherished smells and sounds - all the freedom of farm life!

May

Thursday 24

1917

A glorious twenty-fourth. Did the chores around and then started to dig up trees in the hen-yard for rhubarb. Went home on the 11:30 car. Marcus called as sure as clockwork. Had a lovely dinner at home! It was still cold & rainy with a strong wind and fleet clouds. Went back at 4:30. It cleared off beautifully at night.

Friday 25

1917

A sharp frost last night but no noticeable damage done as yet. It was a beautifully clear morning. The air was cool and the wind from the west. I finished the trees in the henyard. Cleaned up a bit in the orchard after dinner. Company for supper, alone with the little ones at night. Earle Barker killed in action. Saw the high school lit ~~light~~ by the evening sun through the telescope.

Clear and warmer.
Planted potatoes
back of the barn in
the forenoon. Bill
piped away up the
street after dinner.
Jim gave him a
walloping. Worked
all afternoon getting
the same field ready
for corn, vines, tomatoes
etc. Cultivated the
strawberries. Home
again at 7.30. Got
some corn seed for
Mrs. Atkin. Ate sweet
stuff till I was nearly
sick. A letter from Alfs

May

Sunday 27

1917

Cloudy and cool
Sprinkles of rain
now and then. Went to
church with Ba and
Egid. Walked around
to see the tulip beds
with dad after dinner.
It cleared up about
three o'clock. Went
up to school with dad
& Ba. Saw dad's potato
patch. Went down
to Jenny's along. No

to Alfs at night.
Ate a lot of pie; then
went to bed.

May

Monday 28

1917

A strong cold east wind. Sought the faras as usual in the morning. Planted vine seeds in the field back of the barn. Rained all afternoon. Cleaned out the old woodshed or more accurately ice house. Robertson called at night.

May

Tuesday 29

1917

Hazy and cloudy all morning. Helped grind cultivator teeth and did the chores. The sun came out brighter about eleven. Mowed the lawn. Put in garden stuff at the back all afternoon. Got the cows alone. Reid's here for supper. Cool at night. The first real spring day.

May

Wednesday 30

1917

Misty warm and fair. Did a little gardening and then burned some brush across the road. The family went to Brentford in the afternoon. I cultivated the field for corn. Did the milking with the exception of stripping six cows. Supper from eight to half past. Quite cloudy at night.

May

Thursday 31

1917

Still lovely warm and sunny like. The sun kept getting more and more ~~obscure~~ obscure till it began to rain about three. Rained very heavy from five to seven with some thunder. Did a little gardening and picking stones. Started the milking after going for the bins with George.

A beautiful day. The
perfect atmosphere of
June. Riched stones
in the corn field all
day. Hoed around the
strawberries a little
from four to half past.
Got the corn; then took
the disc. barrows up
to Scott's. Went with
the rest to St. George
and then to Grandpa

June

Saturday 9

1917

The morning dawned bright and clear. Started road work at half past seven. Jim went with me. Worked right up till noon. Harrowed all afternoon and got the field in shape for sowing. Did the milberry and chores and when I was almost through Jim linded in and went right out to sow the corn. The fishermen had a lot of fish. He took Bobo and Mr. Deamer. Went home late.

A beautiful warm day. After a brisk ride I got out at 7.30. Picked stones till 3.00 P.M. on the corn field. Jim finished sowing the corn. The clouds from the north blotted the warm June sun from time to time but they were but passing shadows. The elm grove looked badly. Hoed the garden and mowed the lawn then had supper. Did the milking after supper. Sam Rundle came around. Went fishing with Sam & Bob.

June

Tuesday 12

1917

Another fair warm day. After taking the coles down I walked home by the elm grove and spent with much pleasure, comfort and relief a few minutes on the log under those beautiful trees. Hoed the south garden then the strawberries, tomatoes & vines. Cleaned out the sageony beds in the afternoon then cultivated the back turning field. Had a real healthy whack at Greek as I was alone at night.

June

Wednesday 13

1917

Fine and very warm. Could stand my overalls only for a short time in the morning. Worked on the road raking stoves all the way from Symonds to Robertson's in the morning. Jim was on the scraper. Took the scraper down to Symonds and then came back and I took my first whack at ploughing. I made a miserable job of it. Was alone with the boys at night. The clouds came up in a straight grey line and we had thunder and rain

June

Thursday 14

1917

Windy and cool. The light clouds blew swiftly across the sky. Started for Paris right after breakfast with the team. Went to Joe Harrison's then back to Pitts. Finally got the horses shod at Hicks'. Had dinner at home. Aunt Eina & Pa. Mrs. Shepherd buried yesterday and Margaret alone to-day. Got back at two. It rained for a while. Did some more ploughing. Felt miserable - sore throat

June

Friday 15

1917

Got up at six and helped a bit with the Chores. Helped down with the water hose in the barn and then beat it home on the Car. Slept all afternoon. Woke up and found it raining. It cleared off at night and was very cool.

June

Saturday 16

1917

Struck out on the eight fifteen car. Got to work at about half past nine. Ploughed all the time till four P. M. Got about two-thirds of the hill done. It was fair and cool in the morning but all manner of clouds blew up. The wind being in the North-East finally settled in the West and there was a clear cool evening the red glow lasting long. wheeled home at dusk

June

 school to get dad's
 scrip. Did an exercise
 in Gk. after supper.
 Conceived a happy
 thought for Tuesday.

June

Monday 18

The day was warm (and
 thundery, partly fair
 and sultry. Cleared
 box stalls and mowed
 part of the lawn in
 the morning. Went down
 with Jim to the tennis
 field and I rolled
 after he finished
 sowing. Came home
 and finished the
 lawn. Then helped
 with the chores. We
 bagged twenty-seven

Cloudy and cool with the wind in the west. Worked at the second hill till about ten; then came in and hoed around the vines. It began to rain about eleven so I went in the barn and brushed up passages. Finished ploughing down the hill and then drew up the barrow from the turnip field. Got a bit wet so changed up before milking. Rained heavier. Took 9:30 car

June

Sunday 24

Cloudy and warm in the morning after a bad thunder storm last night. It rained from nine to noon with some thunder. Washed the buggy and did some odd chores around the barn. Mowed the lawn in the afternoon. It started to rain and thunder again at three and kept it up till five. Bob Robertson called. It cleared off and came up another storm in the evening with a lot of rain.

It was cool and sunny in the morning. The sun was mostly and quite pale by noon. Cleared off a little better by night but long grey streaks of clouds stretched wide at sunset. The ^(half moon) new moon struggled through the pebbly clouds overhead. Such was the evening but I was doing Greek. Sought the elm grove after dinner. The horse and I blatted and picked away at the will-be orchard.

June

Thursday 28

1917

The sun was still undecided whether to shine or not in the morning. We finished the strips in the orchard in buckwheat. The clouds closed in at noon and became more evenly dull and grey. I harrowed the buckwheat in down the hill after which the rain came on heavier. Went for the cows "heavily the low by raining." Took snow ball over to Bob's. Failed to look over much sk.

Saturday 7

1917

The day was sultry and the sun pale and thundery looking clouds loomed up from the South. Took the cows up to the pasture as usual after breakfast and then fed a couple rows of ~~turnips~~ potatoes back of the barn. Jim and I started in and coiled up most of the field of hay in the morning. It began to rain after dinner and kept it up most of the afternoon. Dried up little bull. Wheeled home in mud

I remember that was a very happy day to do the Sunday King chores.

July

Sunday 8

Wednesday 1

1917

Fair and hot.
 Hoed corn across
 the road all morning.
 Finished the turnips
 after dinner and then
 Jim cut down some
 birch brush in the
 three acre hay stubble.
 The boss ploughed
 the rest of the afternoon
 and I hoed more
 corn. Had a couple
 little showers of
 rain at supper-
 time. Did the chores
 after. Watson etc. and
 Dave Forbes called
 after dark.

Thursday 2

1917

Beautifully fair
and cooler. I hoed
corn after cleaning
out the stables. Got
just past the road
gate into the field.
The boss and Deak
went down to Beamer's
for cherries. I played
cards with Lyla
till ten.

Fair, windy and cool.
Cut weeds along the
road and hoed corn
all day morning. Jim and Deak
went to Mrs. Paul's
funeral and I ploughed
for wheat in the three
acres after dinner.
Went to town in the
automobile. After tea
took a basket of cherries
into Ba, went to Sam
Foulds'. Left Lyla there.
Got home at ten. The
night was chilly and
the moon was full.

Monday 6

1917

Fair and cooler Jim
cut wheat all day.
I shocked it up. Was
feeling rather rough
and had a bad
night. It got much
cooler at night and
there was a lovely
fall sunset.

August

Tuesday 7

1917

Cool with an east
wind. The sun shone
freely at times and
set behind a grey
wall of clouds. Jim
finished binning
about 10, and we
shocked up the rest
of the day morning
and up till 4. I put
up the mow. We
mowed the last

Had a heavy rain
and some thunder
while we were at the
chores in the morning.
Cleaned out the calf
pen and scuffled
the late potatoes in
the morning. Shooked
some stray wheat
in the afternoon.

Had more rain.

Waded through the
sweet clover for the
cows. The three of us
bees left alone at
night.

Fair and very cool
 It clouded up once
 about nine A.M. but
 was perfectly cloudless
 at sunset. Hoed
 turnips all day with
 exception of stooping
 up a little wheat. Got
 two loads before supper.
 Mowed part of the lawn
 and my wheel went away
 with Deat who came
 back again at 7.40 P.M.
 Had late supper
 and then went to bed

 helped in the mow.
 Got in town at half
 past eight. Saw
 Sam and had a
 miserable heap of
 ice-cream.

August

Sunday 12

Fair and quite
 hot again. Went
 for a walk out as
 far as Hymer's in
 the morning. Worked
 around the hill by's

A south wind which
 threatened rain all
 day. It only resulted
 in a few ten-minute
 showers. Bob Robertson
 helped us draw in
 wheat all day. We
 drew in ten loads
 and took off one up
 at his place first
 thing. Now and then
 a little lightening
 at night. Did the
 chores after supper.
 The family went
 up to Jack Miller's
 at night.

August

Tuesday 14

1917

 Mostly fair and hot. We finished our wheat by 10 A.M. with the aid of Bob and Tom. Finished Bob's wheat by 6.30. P.M. It was a weary day's work. But such is life here. All my supper while they were threshing went to bed at 8.30.

Poor Jim, Poor Bob,
 August Wednesday 15 1917

saw the chores in such.
Cleaned the horse stable
the chicken pen and
levelled the hay mow
in the morning. Cut
weeds all afternoon.
It was most enjoyable
working among the
vines, tomatoes, potatoes
& corn. Gertrude helped
me with the coveys
& helped strip them.
Went out spitting after
supper by saw only
two feet & shadows
of ground-hogs.

August

Friday 24

 then held turnips.
 Got in a couple loads
 of slugs, though missed
 grass before supper.
 Milked after supper.

August

Thursday 30

1917

Once again fair. Was cool first but the sun was hot. Cleaned out stables & did a little work about the flower beds. I then hoed turnips. Bob & we hauled in six loads of mixed grain in the afternoon.

The evening was clear, cool and beautiful. It was moonlight before we got the chores done.

August

Friday 31

1917

Still fair and cool but an east wind sprung up and streaked the sky with haze. We, with the help of Bob, finished drawing in the mixed grain at four P.M. Then we took two loads of Bobcoats in. Did chores in the twilight. The full moon shone feebly and the war stars twinkled here and there.

Still cold and Lagg. The sun not full out. The demons of dread and fear were constantly lurking before me. The alabastine candle burned out last night. The strange tumult of bells & whistles, especially the siren, struck me with great fear and I shivered under the covers. Sang in the choir. Was at last face to face with a friend of mine. Ba went to the doc; ip suffering badly. Her arm hung up. Fell over to call after church. Only did a little French in the

Long will I remember that
 fair beautiful sunrise,
 which I only saw at
 intervals from the windows
 at first that narrow strip of
 orange, the cold grey sky
 to the north, that rapid sweep
 of clouds and the orange
 tinted above them. The day
 was taken up with snow
 flurries and it was still
 cold. Worked till 7.30.
 Got a cold but tasty supper.
 Fiddled around and didn't
 do any studying after that.
 The night was as the day
 had been now cloudy - you
 fair, but cold and windy.

Tuesday 11

1917

Partly cloudy but clear at the horizon, which was a faint yellow fading to grey behind dark clouds.

The slender waning moon was over yonder in the east and a few bright stars here & there. Saw all these so I went to my new mill. Back here again to get a nice dinner for us. Happily I intercepted the walk of those dear school children, and my little girl in happy child hood bliss. Got out at five. Got that book (H. yrs.) for Ba. Wrote to Art. Say lov.

December Wednesday 12 1917

Air cold and wintry.
Saw only the narrowest
pale strip of the waning
moon in the early day-
break. The sleighing is
pretty good now. Made
my letter to Art at noon.
Went to Chouprache
at 8.30. Had a lot of
laughing or rather giggles
to do but said and sang
very little. A unusual
my chin twitched and asthma
threatened. Made a wild
stab at that allegro
part in "June" from 7.30
till 8.25. To bed at 10.30

December Thursday 13 1917

A lucky and unlucky
day. It snowed off and
on most of the day so
that I was obliged to
sweep the walks at noon
& evening. Got on a batch
of tan at 4.30 with 10
pigs in it. Went to the
musical club at 8.00
P.M. I ben with a flash
light did discover that

December Friday 14 1917

Party fair and cold. A few light snow falls after dinner. It turned very cold again at night. Looked vainly for the moon in the dim rays east. Jack and I got out some fine one-sextant turning and lay-outs in the afternoon. Enid home as usual at night. She brought tidings of the dreary snow-bound country. Waited two hrs. at the shop in the evening. Only became more aware of my ignorance of things in general. So being quick at spelling, being quite witted? - I hope so.

December Saturday 15 1917

Very cold, clear and biting. Got through a good morning's work at about 11.35. Hung around till twelve leisurely putting on my coat and balf. Visited or at least took a look at those two little girls, who seem me so fair, dim realms of artistic imagination to be always gentle, sweet, and happy. Were they "The light that never fails?" Went to the rink at night with Harry Hill. Had a good skate. Saw the usual bunch of farmers and girls. Harry seems so refreshing, refined and good! Saw Sam and Louie,

December Sunday 16 1917

Dull and very cold.
An east wind blew a
fine snow all afternoon.
Got up at 9.00. Hastily
shaved and dressed. Child
was in the basement
both times. Tried to look
as wise as possible under
the circumstances. In
the afternoon I looked over
some words in the spelling-
book - just an introduction into
that vast sea of words - the
English language. Emily & I
in Hill's after church. Had
a lovely time. Was struck
by a "Harwell by Kingsley" & a
"picture" by Thomson. To bed at 11.00

Partly fair again and still
cold. The sky was mottled
with hazy clouds all day.
At evening, Ah, with I see I forgot
it - How red were the clouds
in the misty west! How bright
was that new moon! and
then - that little pinkish tinge
to the snow! What short
restricted glances I could take
at it all! Only from those
smokey mill windows and
while climbing up the short
steep hill. I felt th atmospheric

 Warmer but not thawing
 just yet. The sun was
 not bright but heat
 shinning till about 4:30 when
 darker clouds seemed to
 spread over the sky slowly
 and from the west. At noon
 everything was bright
 and warm and I saw
 the happy school children

Dull all day with
 a fog so that I couldn't
 see the High School.
 Time went quickly as
 usual at work, as I
 to save myself tried
 to "go down the line and
 get somewhere." Introduced
 myself to Harace at
 night - just for two
 minutes. Went to
 choir practice at 8.30,
 and left again at 10.15.
 Had a poor first
 at singing, and had
 no volume or wind. I would
 be very anxious to have a
 talk with Marie Etourneau

December

Thursday 20

1917

Still dull, foggy and soft. The sleighing well spoiled and the snow otherwise well reduced and blackened. The hill is becoming a more serious problem day by day. Got my first wee bit of cash from No. 1. at about 10 to five. We are getting all we want of those large 150 doz batches. Reintroduced myself to French authors all night contemplated making a formal introduction of the grammar in the near future. Got a letter from Alfs in France. As I speak I hear the 10.30 L. E. & N. and see out to bed - au revoir

 first quarter

December

Friday 21

1917

Wary and dull. The little snow that was left on the ditches and on the hill sides to the west took on a grey appearance. It turned cooler in the afternoon and a north wind blew. One streak of departing day was in the west. I spent a very enjoyable evening at the shack after glancing over Horace's ode to Maecenas. What was there, with the good natured twinkle in his eye. On coming home the western sky was bright with white moonlight and a few stars twinkled. The rushing clouds obscured the half-moon. The north wind was cold.

December Saturday 22 1917

(same weather today Dec. 22/1917)

The stately banks of roads,
hurried across the sky
by a cold frosty wind, kept
hiding the sun which
only took a shy peep from
time to time. All the water
slush was ice and the
snow "sugared". Got the
pen cleared after dinner
and put collashes on the
platforms. Did my Christmas
shopping. Wrote four cards
to - Mr. J. D., J. A. A., E. B., & J.
Went to the rink at night.
Had fine skate but felt
a little w. heazy. Eleanor kept
me out a long while.
Came home with most noble

Yes, what will it bring?

December Sunday 23 1917

Cold, ma non troppo. Got
out at 8.30 and had a
shave before breakfast for
which I was late as usual.
Had service upstairs as
usual both times. Tried
to sing some rather painful
strenuous Christmas anthems.
Called on Miss Buckley.
She played a long while
for me with such great
refinement and beauty that I
shall long remember it. A
couple beautiful Chopin études
took a little w. feazy cold
damp walk after church at
night. Lullaby ~~that~~ impressed
me with much that so sweet
but, Oh, what may the future bring

December

Monday 24

1917

Dull, chilly but melting
 keeping the sidewalks
 wet. Work all day seemed
 to drag as I didn't go to
 bed till 11.10. Got out
 at 4.30. Enid and I
 took a walk down to Dr.
 Burts with a loaf of bread.
 I went on past on the
 way home and made a
 circuit of Banfield street
 revolving many tender
 thoughts meanwhile. Ind-
 q' in jouait au piano. Who was it?
 Made an unsuccessful
 attempt to attach a name
 plate to the door.
 Played bridge for an hour.

Deary Ruth!

 Much colder with sun and snow
 December Tuesday 25 1917

My thoughts to day were a motley collage
 of sweet love, sadness, regret and hope
 My gifts amounted to a dental outfit,
 tie, pair of gloves and a half-shin in
 a Eastman Kodak. Got up early and
 went down stairs. Came up and
 did a little French - the only poem
 attempted to-day. I fiddled a lot
 with that lovely Egede in C minor.
 We took some family pictures in the
 afternoon. Went to the rink with H.H.H.
 Had a good skate. A sharp one with
 sad little Ruth. May she always be
 serious and good - not like her
 cousin which she slightly resembles
~~My dear Ruth~~
~~My dear Ruth~~
~~My dear Ruth~~
~~My dear Ruth~~
 Played cards to finish this idle day

December Wednesday 26

1917

Got up reluctantly at 6.30. Everything was dark dull and cold at first. The clouds were thin, though and for a while in the afternoon the sun was exceeding bright casting funny shadows on our big batch of **black**. The thin clouds seemed to collect again about dusk and the full moon was dull. I did not have a good chance to look at the glory of the sunset sky as I walked home with Mr. Black. Went to choir practice at night. Still lamenting over ^{Esperanto} ~~over~~

December Thursday 27

1917

Dull pretty much all day and quite cold. A wind from the north blew at night and fine snow was flying. Came home at noon and found Alice here. Dad away to Simeone on horticultural work. Had a great old dinner of tongue, squash and mashed potatoes and then plum pudding - walking back to the mill was painful. Took a brisk jaunt up to the jet. upon the north east and down on the south west side. The boys come alone told of a great family gathering. Got my journal for 1918. Cards and other ^{thoughts} ~~thoughts~~

Say! Total eclipse visible

December

Friday 28

1917

Very cold again. The light combinations in the morning sky were peculiar. The pale speck of yellow moon just over the screen - Warkes left the hazy clouds in the west while just the first white of dawn showed up over head. That strip of ethereal blue over the pt. & Banfield St. in the morning widened and the sun shone brightly in the afternoon. Erid and I went to Burt's at night. Miss Black, Ryall, Hope, Miss Wickson. The moon was dull and the night piercing bitter cold.

Sun 30 or 31

December

Monday 31

1917

31 or 30 : or 2
Still very cold and delightfully fair. Didn't get up till 8.05. Did a page or so of Madame Therese then took Art B. and my skates down to be sharpened. Walked home down Emily street and over onto the river - a lovely morning - then home by Banfield St. Saw Marcus for a few minutes. Went to get the skates (304) and then went for a skate on the river with Erid but no sweet girl was there. My chance was irrevocably lost on the 25th. Miss Capron to call at night still very cold. The waning moon was bright.

MEMORANDA

So I am at the end of
 this fair eventful year!
 It seems so short a
 time since I was writing
 a similar line last
 31st. This year has been
 the most varied the most
 colored and the most
 hopeful year as yet.
 Personal affairs and
 surroundings have been
 beautiful, but even so
 through it all I should
 not be as joyous as I
 am considering that
 my brother and father
 are fighting for me and
 so all this now and
