Date Guide

for

1956

The DATE GUIDE is an efficient guide for the busy day. It also records appointments for the days to come. It is a personal diary and a calendar pad. All these are combined for the utmost convenience.

•••

THIS BOOK WILL LAST A LIFETIME. The cover is even water-repellent. It can be kept for years as a permanent record after its daily use throughout the year. Write it down! Lives, fortunes, and reputations have been saved by memoranda written down as decisions or observations were made. The exhibition of dated notations can be vital in almost every controversy. This book is built to serve that purpose.

JANUARY

SUNDAY

Today is the Birthday of 1956!

8:00 Good enough. It says this
 8:30 book is made to settle
 9:00 disputes and to record great
 9:30 decisions. My first decision
 10:00 is to fill this page with
 10:30 observations pertinent to the
 11:00 occasion as it is the only
 11:30 Sunday for which a full
 12:00 space is allowed. I had
 12:30 preached on Genesis
 1:00 Chapter 1. - "In the beginning"
 1:30 the party for the Bailey
 2:00 was much enjoyed by all
 2:30 - the Jay low attended by Great
 3:00 little John (a convalescent measles
 3:30 patient) and Ganga (a non-
 4:00 convalescent grouch). Much
 4:30 fun was had with the
 5:00 tape records "Consequences"
 5:30 played and replayed. The T.V.
 6:00 was also a great attraction.
 6:30 all told a wonderful New-
 7:00 Year's celebration.

I ate late dinner just as the guests were leaving the Taylor residence, however there was lots left to stuff myself with. I came home to find all the Christmas decorations packed away, as Mum and Nuala had spent a busy day. All the fun is over and we must settle down to three solid months of school without a break. A couple inches more snow which I cleaned off the walks before rattling off in TX (empty of gas as Dennis had been using it all weekend to go to the farm.

A perfectly clear day for a change - the first complete one for months. Before the dawn yellow dawn Saturn shone in the Scorpion and after the pale evening sky appeared Mercury twinkling and Venus for above shed her peaceful light. Mummy went on hunting yesterday and I think she intended to come down to the Kerr motors this afternoon. It is in the fog - I must investigate when I get home.

Today is the Birthday of who knows?

8:00 The fourth clear mild
 8:30 day in succession - just
 9:00 like late March with
 9:30 barren brown fallow
 10:00 land and nakedness
 10:30 everywhere. Being alone
 11:00 with Dennis last
 11:30 evening I heard him
 12:00 French vocabularies, and
 12:30 while he was watching
 1:00 T.V. I was scraping the
 1:30 cello and whacking
 2:00 the piano, so preoccupied
 2:30 with the fate of HX I
 3:00 didn't take note of my
 3:30 cabin in the woods or
 4:00 the mood of any of my
 4:30 coppers or clumps out
 5:00 the way down the 4th
 5:30 and Reg Lane. Poor old HX
 6:00 I rather late to see it
 6:30 go.

8:00 The fifth clear day but
 8:30 not mild; a sharp
 9:00 wind kept reminding us
 9:30 that it is mid-January
 10:00 and plenty of cold to
 10:30 come. Got Caudwell to
 11:00 change the batteries in
 11:30 HX and H12. H13 is ready.
 12:00 I guess tomorrow will be
 12:30 the official delivery.
 1:00 Unala came in just
 1:30 before six and we
 2:00 went up to the railway
 2:30 tracks to see if there
 3:00 were any signs of mercury.
 3:30 There were some signs
 4:00 - but none of them
 4:30 official - just a figment
 5:00 of the over anxious
 5:30 human and eye. Mercury
 6:00 is swift - he has beaten

 Drove beautiful H13 out to Drumbo at 2.00 P.M., picked up my beautiful wife and back to Paris, where she took over the controls and I went to the office. Her idea after stopping at the Pear market to see about floor mat, was to pick up the Cherubs, no I mean great hulks of children at the P.D.H.S. Fair and moderately cold.

So night has been not without incident. I thought it might turn out like that January 19th, thirteen years ago, but it sort of petered out and was a complete fizzle. I foolishly drove up & down to have the time fixed at Cub's, on arriving there another one was flat so Frank drove me down. At night I walk up in the least blizzard and start away in the inflated car to get about 50 yards. A kind motorist pushed me to the south end of West River and there she sat all night. Peak came at 7.45. Had a

The threatened snow started at dawn and continued throughout the day so now we have about seven inches. — how lovely and clean and fresh every thing looks. Will poor old #12 start under its white mound? Walks to shovel tonight ~~so~~ so lets head for home and bed and balmy sleep. Dennis not feeling very well. Mumony packing and Kuala fighting off a cold. 10 years ago Gaga was sent away — remembers the day? — full foggy with plenty of snow.

Dennis played up sick and would not catch the bus so I had to drive him to school for which he was a few minutes late — his mom will simply slaughter me. Sun came out at noon to make a brilliant spectacle on the new snow. It was dazzling. Missed Pestigorsky and Rubinstein on television last evening. If I had more time to practice I could play brilliantly myself on both instruments.

What a genius he was!
 What precocity! I love
 him and his music.
 A cold bright day,
 considerably colder than
 yesterday. The sun shining
 from a deep blue sky
 but without much
 warmth. Poor old Hx
 won't be sold this weather,
 covered up with snow and
 with a nearly dead
 battery. Kathleen up
 taking new car to
 Woodstock, so I shoveled
 out the door and lifted
 some. Re-recreational
 lights on H12, and working
 fine. Good old H12 -
 just turned 62000.

Be careful, Mr. engineer, and
 our conductor of peanut,
 grannie, father's train, or
 what have you, don't run
 into anything in your
 headlong speed to Stratford;
 it was just 45 years ago
 tonight and a Saturday
 night too that you came
 to grief. Stop, look, listen!
 nearly zero this morning
 but back up to the mid
 twenties this afternoon.

SUNDAY

FEBRUARY

Took the new car to Kitchener
 and splattered it all up.
 After a delicious dinner of roast pork
 and pan browned potatoes, Kathleen
 took Nuala to Woodstock and splattered
 it up some more.

8:00 among others long since passed
 8:30 away. Very mild
 9:00 and sunny in the
 9:30 afternoon - up to 43.
 10:00 Hope the river ice
 10:30 will hold a week or
 11:00 so longer! Don't want
 11:30 it to go out before
 12:00 it did in 1918. (Feb 17)

 8:30 Yes, it surely went

8:00 - any more Freds?

8:30 Mild and sunny, no

9:00 kind of a day to die.

9:30 but some had to, they

10:00 had nothing to say about

10:30 it. Coffin was ~~on~~ a

11:00 platform with some notables,

11:30 when suddenly the floor

12:30 gave way and his

8:00

8:30 Got a card off to Gerry as

9:00 we drove around the block

9:30 in H13; picked up Mabel

10:00 and Sally and on to Paris;

10:30 there Kathy took over. Muala

11:00 will take her lesson and

11:30 the others will shop. Mabel

12:00 and Sally will visit Ted

12:30 at the hospital. The east wind

little hope of abating by

nightfall.

last evening, - in fact the

whole trip from Sedona to

Kathleen is a wonder.

Today is the Birthday of whom? (Abe Lincoln yesterday - 12th)

8:00 We got the car as far as
 8:30 Butchers, and went for
 9:00 it after church yesterday
 9:30 Dennis having the
 10:00 treat of driving it home.
 10:30 Couldn't get H12 to go so
 11:00 took the new one again
 11:30 yesterday to Waterloo - very
 12:00 slippery going. Kathleen
 12:30 was near to a nervous
 1:00 collapse and didn't want
 1:30 to go. To make matters
 2:00 worse Dennis did not
 2:30 put the roast in the oven
 3:00 or cook the potatoes so
 3:30 we had a late dinner of
 4:00 cold turned ham.
 4:30 I think Kathy feels better
 5:00 this morning, especially
 5:30 as Fern and Tom came over
 6:00 and started H12 in few
 6:30 minutes by installing a new
 7:00 rotor in the distributor.

8:00
 8:30 Soft and springy like; the
 9:00 Canning road was fine
 9:30 and smooth with the sand-
 10:00 packed snow filling the holes
 10:30 but tomorrow it will be
 11:00 back to its former state of

8:00

8:30 Mostly fair and colder
 9:00 but blowing in the strong
 9:30 sun. Breakfast Nuala
 10:00 down and found the
 10:30 ifth not too bad, the 3rd
 11:00 from Carrington getting
 11:30 back to its execrable state.
 12:00 Read "Dancer Beach" and
 12:30 had a great thrill.

8:00

8:30 Frosty at night with
 9:00 a sun-blow in the day -
 9:30 perfect weather. The
 10:00 Bell taxi is running
 10:30 fine and doing good
 11:00 business. This morning
 11:30 I brought Clarence
 12:00 Packard down to the Adams
 12:30 plant and then over to
 1:00 the school with Nuala's
 1:30 pencil case. Had a very
 2:00 comfortable trip to and
 2:30 from Waterloo last
 3:00 evening - much appreciated

8:00

8:30 Cold and sunny. The
 9:00 wind blew quite a bit
 9:30 of snow on the roads in
 10:00 places, but we took the
 10:30 new car to Waterloo and
 11:00 had no trouble. A long
 11:30 practice - 11:20 when we got
 12:00 home. Went down this
 12:30 morning as usual by the
 1:00 4th to see the wintry woods
 1:30 and the wintry river. Rarely
 2:00 does one see so much
 2:30 snow covered ice on the
 3:00 river and so little running
 3:30 water. The whole country

8:00 Yes, oh yes, yes, yes, oh yes.
 8:30 He was so self satisfied
 9:00 - so is Henry G. so
 9:30 am I, so don't criticize.
 10:00 Rain from the east
 10:30 all day and freezing.
 11:00 Will I get home? A
 11:30 case of arrival of the
 12:00 fittest. The Cairn
 12:30 road was all right
 1:00 this morning before the
 1:30 sudden rise in temperature
 2:00 accompanied by rain but
 2:30 it will be a good one
 3:00 to stay off of tonight.
 3:30 Fred Blaham gone to his

 5:00 way home last night -

 9:30 it is on the quick up swing
 10:00 with big winds and snow
 10:30 flurries. - a wild afternoon.
 11:00 Fred H. helped me get up

A couple inches of snow
to clean off the walks
but the mild air and
hozy sun cleaned it
all off before noon.
Very depressed so I
better go down and
spend the evening with
Georgina like Elaine
did. No money
coming in and I owe
so much to so many.

The floods of spring are
starting two weeks ahead
of time. Very dark today
with deluges of rain,
thunder, hail and sharp
lightning. Called for
Mueler at the truck in
the midst of the downpour.
It sounds like an all-day,
all-night storm which
will be sure to loosen
all our lovely winter ice.

Winter again with a
vengeance. Blinding
whirlwinds from the west
with a few intervals
of pale sunlight, otherwise
dark as twilight. Had
to take bus misses
Allen and Joan and also
call at Bill Boyds
since I neglected to
call there in the rush
yesterday. Took H12
again to Waterloo - through
the freezing rain, sleet
etc from the east. I was
the only cello and of course
made an awful mess
of my part.

and cousin Jim Healy

- 8:00
- 8:30 Oh how I love the Irish.
- 9:00 after a blizzard of patients
- 9:30 and much Saturday
- 10:00 strain and stress, Wade
- 10:30 came up as I was about
- 11:00 to clear the office. I am
- 11:30 afraid the desultory cleaning
- 12:00 that followed resulted in
- 12:30 a very inferior job. Duane

Possibly the **18** last of the season.
SUNDAY MARCH

A not too strenuous practice
in the base ball followed
by a delicious beef dinner
with the Taylors as guests.
Grand Allen died last night and

 wet snow falls from a

 the car. Ran into her
 at noon in the A & P. we
 both bought beans. That's
 because I don't know
 beans in a bag. Kathleen
 was left holding the

"Try, try try to separate them" ✓ Yes, I tried to separate them, tried desperately in my youth. What a delusion! We are too soon old and too late smart. No word of H12 yet so I am still driving the green '53. Wastie the old 50 has brakes, and riding qualities like it has. - and the motor - up to 70 in a jiffy. I am going to be spoiled. Cooler and dull with an east wind.

Speaking of Howard - he looks for younger at 72 than his dad did at 65. poor dear Howard - gone for ever! at 85

A night of moaning east wind and rain, which continued unabated today turning to snow at grey evening. It is the type of snow described so beautifully in "The Woodlanders". That snow that follows "weather" too radiant for the season, which cannot whiten the landscape, but leaves it grey. - I just forget how it felt worded, but suffice it to say the wording is incomparable

Cold enough to freeze
half an inch of ice
in the pail out on our

banded for the beauty

clean and lovely in its
new coat of paint in
honour of the Spring
opening of navigation.
Got a new "north"
thermometer which I duly
smashed to smithereens
with the hammer while
trying to nail it up. Fixed
up a composite one using
the old tube, which is
now in place.

I hear lower rumblings
which remind me that
it is a long time between
meals. Yesterday as
with all Wednesdays,
Sundays and holidays
meals come too close
for my choice and
the remaining days too
far apart. Oh well, there
must always be
something to grumble
about, if we were too
contented and docile, life
would be monotonous.
Killed Kathleen's tooth before
the board meeting for
which I was somewhat
late. Bairy's are beer
after. Cloudy this evening
so I can't see my April
moon and Venus.

Can't get away from that snow in the air. It has been with us all day. Dined the P.O.H.S. members of our family for the third time this week, this morning down the far-from-good 4th.

But we got there on time. Took H12 to the hospital for bowel lubrication and enemas

Naught's had all's spent when our desire is got without content etc. etc.
Everything white with snow this morning but the sun licked it all up before noon. Some snotter but a chilly biting wind blew all day. Had lunch at Bulb's after the practice last night. We had not been there long (Pantone was with us) when Glenn and Larry came in.

No leaves yet this year - May 1, 1971

Well here we are at the beginning of May

and I never a leaf on the trees yet. Iakest

of late springs. A nice letter from Alfred

enclosing a charming picture of Evid.

Perfectly clear and warmer

Venus is bright above the Baptist Church in

the evening sky, Mercury ought soon to be showing

itself below her.

Yes Mercury showed

himself - but I had to walk up to Charlotte and

beyond to see him.

Muck, oh absolute - that
refers to our garden. Rained
hard all last night. The
little bit of crop work I did
from 3 till 6 did not amount
to much. Taylors for dinner.

but the bright sun I
lacked warmth even at

bare maples and elms
etched on the late
evening sky from my

I forget the golden text -

9:00

I have ~~lost~~ you all things,

9:30

how that ~~is~~ ~~labouring~~

10:00

ye ought to support the

10:30

weak, and to remember the

11:00

words of the Lord Jesus,

11:30

how he said it is more

12:00

blessed to give than to

12:30

receive. I suppose I must

1:00

be on the receiving end

1:30

this coming week but I

don't like it. Fair and

windy and beastly chilly.

The rain held off so I could
dig my pea-bed and
rake the yard. The stuff was
dry enough to burn partially.
very little asparagus yet.

King Henry B. Bell (catproof)
 a cold morning with a heavy frost, in fact ice in places. Had to build a roaring wood fire as we are just out of coal again. Got two more Campers at Glen's on my way to work. Charlotte is my darling. We had a chimney theme at Justice last evening. Glenn was in good mood and we all enjoyed reading some new scores.

Another hum-dinger of a frost last night. It went up to 60° this afternoon and the sun was warm through glass, but I did not get warmer up, my hands are cold even as I write. Now then we are ambassadors for Christ, as though God did beseech you by us, we pray you in Christ's stead, be ye reconciled to God. Christ demonstrates my jack to be in working condition and so did himself out of a sale. Have seen nothing of the rebate I am supposed to get on that Atlas line.

No kidding I was really shocked to hear of dear old Frank Burt's death, especially on the day of the funeral. I have written a note of sympathy to Jeanne. Also notes to Wade and Alfred. I look up to see if there is any halo above me or any wings sprouting. Rain tonight. The steps any possible croq work. 3 1/2 years a butcher. Shirk of it! Love in it

Jesus, am I pooped.
 Das kind was pooped.
 Great all out effort at the garden resulted in about 320 tubs of potatoes planted and the tomatoes set out. The last practice and Annual meeting was great fun. Kathleen had the responsibility of the lunch and a quack lunch it was. She took the flowers she got from the Widow's home and they made a colorful table decoration. We were both put back on the executive. Patay washed dishes while we had our business meeting. Fair and warm for a change.

Anniversary of the
 lunar eclipse - 29
 years ago. Ah well I
 never forget the June
 day dawnning River
 street in the early
 morning. 92° this afternoon
 brought a mighty
 thunder storm, five
 times more powerful
 than yesterday dropping
 the temperature twenty
 degrees in a jiffy.
 The aftermath of the
 storm reminds me vividly
 of another one similar to it
 at the old home on
 Washington street and
 we were just out for
 summer holiday as
 Dennis is today.
 Drove thru down this
 morning.

8:00 The sun is going down
 8:30 well to the north of
 9:00 Alec's chimney as seen
 9:30 from my ^{North} east window.
 10:00 So from now begins

 12:00 maple which I expect
 12:30 every day to be cut

Dull and cool at first then sunny and warmer in the afternoon - but not hot. The base of scrawny tomatoes I got from Alec were duly laid in the ground yesterday with fitting burial service. This morning I cut the back lawn which was as usual too long. Garden looking pretty nice after the big rain of Saturday night.

Fine and moderately warm. Got a nice sentimental "brother" birthday card for Alphs which I posted at noon. I called at the P.D.N.S. and got Ben's report card. What do I do with it? bury it? or bury myself, or both. Perhaps tear it little pieces and scatter them from on top of the C.V.R. bridge then jump off into the septic tanks below. Ah, me, why were fathers ever made?

you do not worry about Dennis now - bank manager at The Falls. He's a better man than you are. gunga jin: June 26, 1971

 only enjoyable place being
 indoor seating from the
 plentiful smorgasbord.
 Roy even lit a grate

 amount to much.

Finally got up enough
nerve to call the garage

for a grease and oil change
for dear old H12 - none
dear to me than HX ever
was; or H8 either. It's
like making an appointment
with the dentist - you keep
putting it off, and losing

has gone over 2500 without
any oil added - pretty
terrific for 66000.

What a clear cool morning

it was! and how white

our house looked from

Mildred Coltrane
 what the hell's her married name?
 Sunny and warmer
 Mummy picked some beans as I was getting ready to leave which I took to the Bailey house. Visited poor John on St. Andrew Street. He looks fine. These gospel tunes from the Baptist Church drink me nuts.

8:00 How's Blanche, Bert?

10:00 had left our garden

10:30 stuff flattened into the

11:00 mud and standing

11:30 water, we have had

12:30 about 75°. Very

1:00 lovely except that all

1:30 the grass is flat.

2:00 So I tho's Payle's is gone!

2:30 — guess I don't need

8:00 The concatenation of events

8:30 last evening made me

 South-west wind exp. I
 haven't got the mail
 yet. I am patiently waiting
 for the rain to stop and I
 have only an hour more
 before closing time. I am
 glad Ken and I dug the
 potatoes yesterday all but
 two rows; they were
 rotten enough as it was
 after this they will be
 mush, mush worse.
 Phew! what a stink when
 we dug up a thoroughly rotten
 hill!!

 What a blessing was
 the sun after yesterday.
 Got some U.S. E.
 currency today so here
 goes for our 1956
 Holiday. Our glads
 are just beginning
 to bloom. So glad
 they will have to be
 cut for church. Every
 Saturday they will be
 laid low - there is
 an unwritten law to that
 effect. One tomato
 starting to ripen -
 what a season!
 Worse than 1926.

 10:30 two lunches at the cow
 11:00 by the waterfront, also
 11:30 had a special bench

 2:00 at 6:40 P.M. then went
 2:30 through the government

 3:30 hour. Kathleen drove
 4:00 via the Burlington Cutoff
 4:30 to Lemistia Inlet/Alton
 5:00 bridge. Got across it
 5:30 and bedded down in
 6:00 the nice farm tourist
 6:30 house just across the

 It felt chilly at the Ex.

 12:30 setbacks. Muala, Kathleen
 1:00 and I all drove. Kathleen
 1:30 piloting us in from Yorkens

 2:30 The sun was mostly hidden

 not too hot - a perfect day

Belle
 The last day in New York was in many ways the best. Spent the morning shopping at Macy's and Saks. Got Paula a all-weather coat, Dennis a jacket and socks, also socks for me. Kathleen spent most of her birthday money from Evelyn on a smart fall coat. Dennis went by himself in the afternoon while we three went to Radio Music Hall and saw a fabulous show - High Society - Sinatra, Kelly, Crosby also a live extravaganza. This evening we dined at the Latin Quarter and saw the most stupendous show of all, which I will remember always. Paula and Dennis danced after while, we sat an expensive evening!

Drove en route on the thruway. Dinner at Howard Johnson's outside Buffalo. Ray drove to the Falls and across the bridge through worst traffic of whole trip. Followed R. E. 20, 53 and 2. Drove from Princeton. Heavy rain most of the way from the Falls.

Talk about youth and the 1920's and '30, I'll take the whole New York adventure ending in the delightful trip home through mist, sunshine, thunder and rain. What superb thrills! 8:00 Cool and fair. 45° to
 8:30 begin with so I lit
 9:00 a smoky fire in the
 9:30 furnace, burning damp
 10:00 paper and wood which
 10:30 failed to dry out after the
 11:00 floods of last week.
 11:30 Apparently we missed a
 12:00 sham digger by heavy
 12:30 away, in fact several
 1:00 huge diggers. Very fall-
 1:30 like with the last faint
 carols of the wailing wires.

 Nearly everybody back and
 in good spirits. Had
 the Taylors for ye old
 roast beef dinner then
 Kathleen and I got
 together and beat
 it to Doug's at Waterloo
 for a good old executive
 smelting. Lots of fun,
 food, drinks, television and
 little business.
 Monday - We pay up on

 Sky was blue at first

 rainy and dank. Wonder
 if Kathleen got her
 clothes dry? Hear

 Our poor gladioli and

Well here we are at our
19th anniversary. Celebrated
same by going to work
as usual after washing
the breakfast dishes. Kathleen
celebrated it by driving
Nuala to Toronto to
register as a freshette
at U. of T. ^(Nuala) she is a
1 year and three months
Sprunger than I was when
I first breasted the blast
in the big city. Of course
I stayed out of school
for a year making
tremendous money on the
farm and at Pennans.
Of course, don't say anything
against Pennans - not if
Bernard is around. Cold
with flecks of snow mixed
with the rain. A late
October day.

Warmer and fair, the golden sun making the reddening leaves more so. How green are the fields after six months of rain! How green was my valley! Nuala's last day at Drumbho. She will be homesick away from her devoted, painstaking mother. 8.00 o'clock (E.D.) strikes, the day is practically dead except for a pale glow far down in the west.

Rode down with Mummy. Dinner and Nuala in the loaded car (H13). Bid goodbye to Nuala at the Commerce Corner at 9.00 A.M. I am now about ready to burn another ride home with Mummy. Dinner and the not so loaded car. Very fine day - the nicest this month though not very warm - hardly 60. The waning moon over the Baptist Church and sinking to the north of it into the trees was my morning love.

strong sun brought the

very early in fact, before

 9:00 breezy for Jack's many

Today is the Birthday of A. Gertrude Pratt, where is she?
 8:00 Has she been captured by the grim
 8:30 reaper?
 9:00 Windy, partly fair and
 9:30 much cooler. Had to
 10:00 wear a top coat. Did
 10:30 not feel any bad effects
 11:00 from my shoot with the
 11:30 ladders yesterday.

- 8:00
- 8:30 My heart is light, my
- 9:00 pulse also. None of my
- 9:30 organs are full except
- 10:00 my stomach. Through
- 10:30 "half" this bright
- 11:00 sunny autumn I have
- 11:30 jolted down my thoughts
- 12:00 such as they are daily.
- 12:30 Such a lot of bunk.
- 1:00 The trio last night

- 2:00 three superb soloists

- 8:00 Peach - you are a peach,

- 10:00 Venus and Jupiter
- 10:30 in close conjunction

8:00 With a little bit of luck, with
 8:30 a little bit of luck - to the
 9:00 tune of - Fortune frowned on
 9:30 me today as I had a sore
 10:00 throat and felt feverish - very

 11:00 patients carry me along
 11:30 through the day and now
 12:00 at 8:30 with my office
 12:30 cleared, I feel like a

 cocks around. Practice tonight

Of course we missed them at the practice, but there were six celli so all was not lost. When I got home at 5:30 I got busy and put on the three remaining storm coats - bathroom and two doors. Dennis is stuffed up with a cold while trying valiantly to study for Christmas exams. Had to shovel quite a bit of snow off the walk this morning (Monday) snow in the air most of the day

Had to get up at 6:00 A.M. in the dark, snowy November morning to get Mrs. McBain's breakfast as she had spent the night in Nuala's room and had to go back to Hamilton with Fred H. at 7:00. Roads quite slippery so driving was cautious. Sun tried to shine a little this afternoon and the temperature struggled up to nearly 40°.

Milder - all of our poor little bit of snow gone in an afternoon drizzle. Don't say anything about Christmas shopping or I'll spatter the room with your foul insides. I bet, reminds me I'll have the job of taking the foul insides out when the western bird arrives. Of course I don't do it the suit - I don't do anything to suit - I am a failure - like Dagwood Old R. G. ^{name} gone - and important landmark and link with the past taken away.

Well, well, my observer's handbook for \$57 sent on receipt of my 3.00 fee. Guess I have been lax in that respect in the past. Do think that the book is edited by dear old Dr. Chant, 9 odd years old. But the sad part is that he is deceased and will edit no more handbooks or journals. Maybe now he will be plotting and listing the orbits and conjunctions of angels and such heavenly bodies.

At last we see flakes of snow falling. There is yet time for a white Christmas - but not much. However the barometer is low and the temperature is dropping. Art took Nuala away yesterday afternoon to Rudy's to a party and they didn't get back till the small hours. Geoff was here working at nocturns with Ben so we had four at the - no I mean two at the counter and two in the T.V. room. Have just taken the presents up to 37 Jane and dear Rene was there. I am to take Nuala home from another party - this time for grade 13.

A very fine Christmas day. Sunny for a complete change and enough snow fell over night to make everything white. Had the stockings first, then the tree over at Jack's. Just as I went for Bertha in the afternoon. Had the usual western-style turkey dinner at the Taylors and much fun was had by all. Dinner made ten at the table. After the onslaught of dishes, Jack took Benie back. Everyone happy over gifts. Now got money for my ring. I got a new cello bow among numerous other things. Benie got a Philishane
