TUESDAY

Today is the Birthday of 1957

8:00 zero° F to give a cold start to 1957

8:30 The elements did not

9:00 prove too obstreperous last

9:30 evening so we journeyed

10:00 in safety to the Bailey

10:30 residence where a new

11:00 years party of some

11:30 magnitude was held.

12:00 Singers, the Callinus, Harold

12:30 the C. etc. much noise,

1:00 drinking, eating and burping.

1:30 Did not arise till ten AM

2:00 this morning. Nanny and

2:30 I went to Paris just

3:00 before noon and I fixed

3:30 her work to start the

4:00 New Year off right.

4:30 In the afternoon she and

5:00 Nuala went to Woodstock

5:30 while I did odd chores - such

6:00 as bring in the frozen beet

6:30 and Carnots. At 4.30 another

7:00 party started at the Taylors

8:00 This here clearing the  
 8:30 office takes too much  
 9:00 precious time from my  
 9:30 bell-toe-shout moments  
 10:00 when the door is locked!  
 10:30 I have great plans for  
 11:00 the future in jeans etc.  
 11:30 - a sign of well-being  
 12:00 in body and mind. My  
 12:30 embryonic German is budding  
 1:00 also. Laylous and Bells  
 1:30 all in to the office at the  
 end of the afternoon to make  
 me hungry and want to  
 go home with them.

SUNDAY

6

JANUARY

Practice as usual, leaving  
 Nuala to journey on to  
 Toronto. We had a lunch  
 for dinner and a fine T.V.  
 show after - of course the dinner  
 was tops too - roast beef etc.

8:00 Dear girl, I should have

 9:00 let the days slip by  
 9:30 without doing that  
 10:00 little kindness. How

 12:30 I got Mumony's "Pferde"

8:00 How far along on January  
 8:30 10<sup>th</sup>? Well I got Jas of  
 9:00 Jan as Paris, while Mom  
 9:30 and Ronie went on to  
 10:00 Toronto. I await them  
 10:30 now at 8:30. Kathleen  
 11:00 is so amazing as a  
 11:30 business woman, a driver,  
 12:00 a director etc, etc, as well  
 12:30 as many other well known  
 1:00 attributes that I am  
 1:30 simply flabbergasted at  
 2:00 her ability along so many  
 2:30 lines. Clear and cold  
 3:00 today. Leader for zero  
 3:30 tonight says the forecast.

8:00  
 8:30 Got a card away to  
 9:00 J.S. It was just  
 9:30 J's above this morning  
 10:00 but H12 started nobly.  
 10:30 I have much comfort  
 11:00 travelling in said  
 11:30 chariot, as there are no  
 12:00 drafts no matter how  
 12:30 cold or windy the weather.  
 1:00 It is a wonderful vehicle.  
 1:30  
 2:00  
 2:30

3:00 Jan 11, 1962 - It was J's above this  
 3:30 morning and H12 started nobly -  
 4:00 chiefly because it was in the porozone  
 4:30 garage - however it would have started  
 5:00 even outside as it did the other morning  
 5:30 at 5 below. I can't say there are no drafts.  
 6:00 It is all drafts - and cold as the devil.  
 6:30 and there are no comforts. You have  
 7:00 to be dressed warmly to stand it - but  
 the dear old car runs well as ever -  
 easy on gas & oil - what a motor!!

 yes, I was with dear friend Ron  
 this morning, too. He is still a  
 wonderful chap. Friday Jan 12/67

8:00  
 8:30 Dull and milder, thawing  
 9:00 a little this afternoon.  
 9:30 a sad day: no money  
 10:00 coming in, no promise  
 10:30 of any! just work and  
 11:00 slave and get no thanks  
 11:30 for it. However the day  
 12:00 was not all gloom - it  
 12:30 started with dear friend Ron.  
 1:00 at the Willett. He is a  
 1:30 wonderful chap.

H12 - 70,000.  
 (Jan 12/62 - Today also started with dear friend  
 Ron at the Willett. He is nice as ever. H12 has only  
 125.00. no money copying in.)  
 SUNDAY  
 John Spiens Taylor D.S.O.

Very cold! around zero or below  
 all day. Another good  
 feast at the Longasbord  
 with Art and his mother. Executive  
 meeting at Doug's afterwards.

8:00 Hurrah, the car (H12)  
 8:30 started this morning.  
 9:00 As I mentioned it turned  
 9:30 7000 on the highway  
 10:00 a mile or so east of  
 10:30 Prineville last Saturday  
 11:00 evening. I see by my  
 11:30 diary everything and  
 12:00 everybody are wonderful -  
 12:30 so is this good old  
 1:00 earth wonderful. 70000  
 1:30 and not a wrench on the  
 2:00 motor and no oil  
 2:30 consumption. Moon and  
 3:00 stars bright, frost high

 5:00 H12!  
 5:30 Jan 15/62 112590 - and never a  
 6:00 wrench on the motor and  
 6:30 very little oil consumption!!!

Princess Caroline Ranier

- 8:00 A sudden jolt back to winter
- 8:30 Pair-sized drifts to shovel
- 9:00 this morning, and some time
- 9:30 and patience necessary to
- 10:00 open my car door, and
- 10:30 of course my ten o'clock
- 11:00 patient was waiting for
- 11:30 me. Came down by
- 12:00 Canning over the bumps,
- 12:30 holding the door shut, and
- 1:00 with a zero gas gauge.
- 1:30 not comfortable motoring.
- 2:00 Clean today and cold.

8:30 Amazing how the cerebrum  
9:00 with its continuous breathing  
9:30 down and building up of cells  
10:00 retains certain patterns  
10:30 that give us memory. Memory  
11:00 is one of the most  
11:30 precious possessions of man.

12:00 Nobody can take it away  
12:30 from me as long as I am  
1:00 alive. Come on, now, 1917,  
1:30 let me live you again in  
2:00 my memory, as you are

2:30 my many ways one of  
3:00 the outstanding years of my  
3:30 life. A beautiful winter  
4:00 day with a bit more snow  
4:30 to keep things clean and fresh.

5:00 Brought Seal down and have  
5:30 to take him back as well  
6:00 as Nuala.

were late starting and left at 4:30  
to go to Benford for a big buffet  
dinner and evening of gas.

 My sidekick Eddie

8:00 So it's February! A  
 8:30 gentle first of February.  
 9:00 Dull and almost  
 9:30 thawing with a little  
 10:00 snow softing down.  
 10:30 Dennis left his books  
 11:00 and clarinet on my  
 11:30 stairs. It means no  
 12:00 practice or study tonight.  
 12:30 Dennis has a single  
 1:00 track mind. His one  
 1:30 and only absorbing thought  
 2:00 was to get down to  
 2:30 the vehicle permit office  
 3:00 and get his Buick's  
 3:30 permit. This he did  
 4:00 with great dispatch.

More like spring, but dull all day. Helen Barbara came with Nuala's pictures but I did not have any chance to talk to her as the office was full. Good old Tom Bean signed Len's application forms for his chauffeur's license. The great day is not far off. We wish his new suit would come as he has outgrown all his clothes. He has bagginess of the trousers, also shrinking of the coat sleeves.

8:00 About a foot of snow  
 8:30 to greet us this morning  
 9:00 and two or three more  
 9:30 inches have fallen today.  
 10:00 Came down by Canning  
 10:30 alright but the visibility  
 11:00 was poor. It has been  
 11:30 blowing all day and  
 12:00 now a lot of the back  
 12:30 roads are a mess. All  
 1:00 I hear throughout the day  
 1:30 and evening is zoom-  
 2:00 zoom-zooming and squeeling

 3:00 Received my quota of

8:00 Came down by no2, although  
 8:30 I guess I could have  
 9:00 swade it by Canning  
 9:30 and not have been  
 10:00 quite so late at the

 11:00 sweetest pen that ever  
 11:30 I had in my hand.  
 12:00 I have always dreamed  
 12:30 of a pen like this, but  
 1:00 despaired of ever owning  
 1:30 one. Nearly ten o'clock

8:00 I am sure feeling the pinch  
 8:30 - just like a depression  
 9:00 for me. Work like hell  
 9:30 and cant scrape enough  
 10:00 green stuff together to  
 10:30 pay Kathleen her allowance.  
 11:00 One minute I am boiling  
 11:30 mad and the next in  
 12:00 the slough of despondency.  
 12:30 Oh well, a lot more snow  
 1:00 and rough hazardous  
 1:30 motoring. Blizzards and  
 sunshine at intervals all  
 day. Quite cold tonight  
 What a notable pen!

So they think this pen is

 is, but I like it just the same.

[The dirty banks of snow]

Mild, making bare spots between Hurnah, I have finished a long overdue letter to Elsie Watson. I have also finished another week's playing at the chair and hospital. Ron was very nice to me. My patients were not so nice to me for I have not sufficient funds to pay my dear wife her weekly allowance - in fact only half enough - and I was behind last week too - ah me I am a failure

8:30 Cold north-east wind

9:00 and mostly sunny

9:30 which made a much

10:00 better day than

10:30 yesterday of 15° above

11:00 but my water-jug left

11:30 in the car overnight

12:00 was not frozen? How

12:30 come? Because it was

1:00 empty, you'll say. No,

1:30 it was full, strange

2:00 to relate. The Guards

2:30 free of ice but the

3:00 French ice holds above

3:30 No, dam.

4:00 Cub's gas up to 4 1/2 and

9:00 The last day of February

9:30 was not a divine

10:00 winter's day, but it has

10:30 been cold enough with a

11:00 persistent east wind.

11:30 The Canning road being

12:00 frozen hard as iron I

12:30 came down that way

1:00 to try the bumps. The Ruth

2:00 there is an ice-jam around

3:00 Ruth Watson was splendid

8:00  
 8:30 Sunny and above freezing  
 9:00 most of the day. A  
 9:30 beautiful first of March.  
 10:00 February ended in a  
 10:30 blaze of excitement for  
 11:00 us as Ruth was even  
 11:30 more brilliant if  
 12:00 anything than the night  
 12:30 before. She was pressed  
 1:00 to play an extra encore.  
 1:30 The orchestra too went  
 2:00 over big as they demanded  
 2:30 two encores so we  
 3:00 ended up with the  
 3:30 King and I. Lorie  
 4:00 drove so I could relax

Today is the Birthday of new moon lovely at Guelph

8:00 Sunday (continued) - we set out  
 8:30 for Guelph via Kitchener  
 9:00 and arrived at Bert Reachel's  
 9:30 just on the tail of Rudy  
 10:00 and the Reymours. Glen  
 10:30 and Larry came later.  
 11:00 A delightful social hour  
 11:30 and buffet lunch was  
 12:00 enjoyed then we headed  
 12:30 over to the O.A.C. auditorium  
 1:00 at 7.15 for our rehearsal.  
 1:30 Gilbert was there so I  
 2:00 enjoyed myself to the full.  
 2:30 Uncle Harry and Aunt Mildred  
 3:00 came down and spoke  
 3:30 to us. Poor Rudy followed  
 4:00 us out on 24 so we had  
 4:30 to stop and head him  
 5:00 off on the short cut over  
 5:30 to Preston.  
 6:00 Monday - Hard to get down  
 6:30 to mundane toil after the  
 7:00 excitement of yesterday. Cold  
 and bright.

8:00 Is she living? and where?

8:30 Very windy and only

9:00 partly fair turning

9:30 cooler at night. The

10:00 weather succeeded for one

10:30 or two days in passing

11:00 the 1945 record for a forward

11:30 March, but in so doing

12:00 has overbalanced, stumbled

12:30 and fell. Tomorrow

1:00 promises snowflurries

1:30 so we will be back in

2:00 something more reasonable

2:30 thank goodness.

8:00 Great day. Took in \$10.00

8:30 on \$140.00 worth of plate

9:00 work. How the hell am

9:30 I to meet my obligations?

10:00 Set alone and anything?

10:30 Snow in the air most

11:00 of the day but not very

11:30 cold about 40°.

12:00 Had fun reading some

12:30 of "Seventeen" to Kathleen

1:00 last night. How tender

1:30 and deeply introspective is

this sparkling book!

8:00 Sunday (cont.) Dennis had  
 8:30 a lovely dinner cooked  
 9:00 for us when we arrived  
 9:30 home after sis. Kathy  
 10:00 was not feeling too  
 10:30 well so went to bed  
 11:00 early and missed  
 11:30 her favorite TV programs.  
 12:00 I read to her from  
 12:30 Ben's short story book.  
 1:00 Monday - Kathleen still  
 1:30 feeling rotten: had  
 2:00 breakfast in bed  
 2:30 and stayed there. I  
 3:00 hope she soon improves  
 3:30 as our morale is  
 4:00 decidedly low when she  
 4:30 is not at the helm.  
 5:00 I am deeply stumped

8:00  
 8:30 A very gloomy day. Lights  
 9:00 on most of the day.  
 9:30 It began with scraping  
 10:00 ice off my windshield and  
 10:30 car windows. Sleet and  
 11:00 rain from the north-east  
 11:30 all day. Very dismal.  
 12:00 Kathleen still down with  
 12:30 her flu/cold so stayed  
 1:00 in bed for the morning  
 1:30 again. I don't know  
 2:00 how she got up and  
 2:30 taught, walked up town,  
 3:00 cooked dinner yesterday  
 3:30 afternoon - but she did.  
 4:00 She has wonderful grit.  
 4:30  
 5:00 So has the spiroch I bought today  
 5:30 Had to scrape off windshield with  
 6:00 windows this morning just like above

9:00 *Wish my working week ended Friday evening instead of Saturday. I am all pooped out and hate to contemplate the bulk of Saturday's onslaught, starting as it often does with a visit to the hospital where I rip and tear in a muck of sweat. Oh well. There'll be a brighter day - some day. It's in the book.*

Toby's girl - Madonna

— where the hell is she and what is her name?

Cleaning and cooling. A perfect April evening with the pure silver crescent hanging above the twilight woods — or more accurately from where I am situated above the Paris Baptist Church. I am nearly dead — syphilitic sores all over my legs, my eyes nearly closed with gonorrhoea, and my chest filled up with pleuro-pneumonia. I have haemorrhoids and pox on pox. Cocks on cock.

8:00 Still snowy on rising  
 8:30 this morning but the  
 9:00 sun succeeded in clearing  
 9:30 it up by noon, but the  
 10:00 air was chilly all day  
 10:30 despite the milder  
 11:00 looking sky. Spring is  
 11:30 not here yet.  
 12:00 Had a good time at  
 12:30 the Widows' last

8:00 Another wintry morning  
 8:30 with everything covered  
 9:00 with two inches of  
 9:30 fluffy snow. Of course  
 10:00 the windows and windshields  
 10:30 had to be brushed off before  
 11:00 backing out the old  
 11:30 faithful car. By noon  
 12:00 every vestige of snow  
 12:30 had disappeared and it

8:00 Of course we could not  
 8:30 do without our nightly  
 9:00 snowfall, this time it  
 9:30 took me five minutes  
 10:00 to brush and scrape the  
 10:30 car. The way the stoker

8:00  
 8:30 Snow flurries from time to  
 9:00 time throughout the day  
 9:30 and the lofty sun was  
 10:00 practically without warmth.  
 10:30 This evening is about  
 11:00 like the one 34 years ago  
 11:30 but in 1923 we had had  
 12:00 some warm days before  
 12:30 in April — but not March.

 when we were away at Alfred's

a day of great Rabons at the Bell homestead. Took off the west and south

8:00 How full of promise is  
8:30 this season - like  
9:00 April 30th 1922. We  
9:30 will most likely  
10:00 have some rough winds  
10:30 to shake the dangling  
11:00 buds of May. Maples  
11:30 and elms about half  
12:00 unfolded now, and  
12:30 the woodlands, as I came  
1:00 down the if to were in  
1:30 their most beautiful  
2:00 state - oh those elms  
2:30 by the river road near  
3:00 Kanning, how marvelous

etc etc.

A chilly clear night, last night. Saw the thin snow before going on stage. The *Devonak* B minor concerto was magnificent. On arriving home - Jack, old scout, drew my attention to the lovely comet in the northern sky. - just above Perseus. A fine night for Uranus and Neptune and later, Saturn brought promises to be good also.

 the young moon, Uranus  
 Neptune, Jupiter, Saturn  
 and a fabulous comet  
 above Pleseus. What a  
 lineup. George was  
 quite interested in  
 sunspots and we had  
 fun with the glasses  
 and little telescope.  
 That was a lovely

 not think about it

 and moderately warm.

What is this<sup>2</sup>, 1911 or something. By the early forest fires up north one is reminded of that hot dry year. However the drought is over for the time being at least. Rain has tumbled down this afternoon and the evening has brought more showers. Got my potatoes planted yesterday, so this rain will be great for working up the best of the garden for small stuff. Came down with Kathleen in white and blue car. Muala has just phoned from Aunt Edna's.

Much rain fell all day changing the dusty drought-stricken land to a soggy mass. Nuala seems in fine fettle and ready for a summer holiday full of work - physical and mental. Her mother is a marvel in so many ways, I can't enumerate them all. Sent a silly card to Bill.

Hope it doesn't rain all the long week-end so I can't do cross-work. I guess there is nothing wrong with this pen - just like a child - sometimes off its feed.

8:30 The annual meeting came  
9:00 and went - all too fast  
9:30 like all the pleasant  
10:00 things in life. A short  
10:30 practice with Charlie  
11:00 to make it more pleasant,  
11:30 the business meeting  
12:00 during which we all went  
12:30 back on the executive  
1:00 and out as well; finally  
1:30 a social and feed over  
2:00 at the hotel - everything  
2:30 superb including the fine  
3:00 speeches by Doug, Albert  
3:30 and Glenn.

Garden stuff at a

good for sleeping

Dear old Alf - would have  
been 83 today, and a  
fine day it is except  
for that cool east wind.  
Kathleen and Neala came  
home from Toronto yesterday  
laden with good things.  
Too late to do crag work  
all this week so I must  
make amends this  
evening. Don't rush me -  
all day, all night, Mary Anne

8:00  
 8:30 Yes, we did not allow much  
 9:00 slumber to steal the sense  
 9:30 away - that is, what sense  
 10:00 we have, if any. The reason  
 10:30 - stayed at Baily's till  
 11:00 here then called at Broadway  
 11:30 Marian and guffed with  
 12:00 Blanche and Geoffrey for  
 12:30 more valuable minutes, so  
 1:00 it was nearly eleven when  
 1:30 we hit Drumho. The night

8:00 I tossed and rolled and  
 8:30 scratched in an itchy  
 9:00 sweat last night in  
 9:30 our oven of a bedroom  
 10:00 just like I did in August  
 10:30 1918 at Norwich - well  
 11:00 I even forget it!  
 11:30 The important event  
 12:00 today was the installing  
 12:30 of my new shingle  
 1:00 downstairs - one that has  
 1:30 been kicking around for  
 2:00 at least a year. The  
 2:30 spec that brought it  
 3:00 on was Nathaniel's threat  
 3:30 to buy me one if I did  
 4:00 not even do something

The long strong June day. A half moon high in the morning azure, and a sign of great brilliance with cool fresh air - just a perfect June day. The trees and flowers are at their best. The downy seeds floating in the air like snowflakes from the west are from the cottonwood poplar (*populus monilifera*) at the west end of Welbarr street. Dennis's holidays began today with him working at the shops. Bright and early - which is shortly after eight.

8:00 Summer, ah summer,

10:30 cousin Margaret to

11:00 Inverhuron in Bruce

11:30 county, leaving Margaret

12:00 there for her summer

12:30 holiday job. Today is

1:00 the day A. Pratz calls

1:30 at Perumbo to give

2:00 Nuola her lesson.

2:30 A sunny fine breezy

3:00 day with a hot sun

3:30 and fresh air, finds me

4:00 slaving first at the

4:30 hospital then at the

5:00 sweat shop.

ah - the long June day.

9:00

Do you remember the stars

9:30

and planets. As we came

10:00

home from Toronto 35

10:30

years ago. Will I ever

11:00

forget that evening! But I

11:30

should. Oh the hot weather

12:00

oh the attractive girls, oh

12:30

the tender traps of years ago.

As the song says - you can't

1:30

go to jail for what you're

2:00

thinking. Did good bye to

Wade last night first at

3:00

Ruth's and then down on Wilton

street - which started all this

chain of thought

SUNDAY

A fine hot day, suitable for hoeing and digging the potatoes. Out here for dinner and of course we had a lot of fun. He and Nuola went to an evening Band concert at Waterloo.

So it is the Arend-Roland

bad I didn't notice it  
before May 2<sup>nd</sup> when

Since then I have been

Was much impressed by

the fragrant and beautiful

apple orchards (June 1917)

I was omitted yesterday

with George's little girl

- what is her name? Last

night <sup>yesterday</sup> it rained and thundered

with great violence all

evening while we sat in

the bank dimly troubled

with candles. Power off

from 6:45 till 12:30.

Then I went downstairs

to turn off the lights

left on. Today is

sticky and hot with

evening showers.

Cool windy and partly fair. The sun. I might mention is troubled with many spots this year. Maybe that has some bearing on the weather which is anything but settled. Be careful - do not go out the <sup>east</sup> river road this evening - you went out on Wednesday last - that is enough.

Remembered to get a card off to Hattie. a fine day, not too hot or humid and mostly sunny with many marvellous shapes of clouds which I did best have time to look at. Full, lush summer with the grass and foliage almost shading the little cabin on the "4th". Hope to get home in time to do a little work as much cultivating awaits me.

89° today, not the temperature

- but Ralph is 89. Some

age - aged in the wood.

A beautiful bright, breezy

coolish day. Kathleen

struck it right by

waiting to wash today.

Nothing could be nicer

and drier than the

fresh air from the west

and the few woolly white

clouds hardly tempered

with the brilliant sunshine

9:00 to Schuylers this morning  
9:30 at 8:30 but the driveway

 8:30 Hamlet was superb last evening at Stratford.  
 9:00 As Quail had gone early with Art, we took Sally Lu besides Turner.  
 9:30 Dennis drove in his usual "goomy" manner full of authority and the confidence of youth. The last act was sublime - electrifying the senses and moistening the eyes. With Dennis it was his nose that was moist as he has a nasty cold.

9:00 We covered about 450 miles

9:30 and are stationed in the

10:00 most luxurious motor court

10:30 with large rooms, roomy

11:00 beds, a fine large swimming

11:30 pool which we are all

12:00 enjoying to the <sup>at Jacksonville Fla</sup> full, all the

12:30 disturbing lights make it

1:00 hard to see the stars. Venus

1:30 and Jupiter were noticeably

higher in the sky also

Saturn, Antares and Regulus.

Cloudy and showery till mid

afternoon.

8:00 Very warm. Kathleen  
 8:30 drove from our last  
 9:00 motel in Florida till  
 9:30 long past breakfast, then  
 10:00 I took over for 120 miles  
 10:30 or so. Dennis drove the  
 11:00 last lap and here we  
 11:30 are near Maryville, Tenn.  
 12:00 just south of Knoxville.  
 12:30 We stopped along the way  
 1:00 to pick some branches of  
 1:30 cotton. This is our  
 2:00 most luxurious motel yet  
 2:30 with everything shining  
 3:00 and new and two bath-  
 3:30 tubs. A restaurant within  
 4:00 a stone's throw where we  
 4:30 trucked away an enormous  
 5:00 dinner for only 1.50 per  
 5:30 plate. Our holiday will  
 6:00 too soon be over. Between

8:00 Here we are on highway  
 8:30 127 about 20 miles north  
 9:00 of Cincinnati. We didn't  
 9:30 make so many miles  
 10:00 today only 335 but we  
 10:30 had some delays, especially  
 11:00 at Knoxville, Tenn. where  
 11:30 we got a plastic seat  
 12:00 cover fitted to the front  
 12:30 seat; we also stopped for  
 1:00 a set of plugs at another  
 1:30 place. The driving through  
 2:00 southern Kentucky was  
 2:30 slow, curvy and trying  
 3:00 with much Labor Day  
 3:30 ~~any~~ traffic. Dennis was  
 4:00 the hero who breasted  
 4:30 the slow creep across the  
 5:00 Ohio river and through  
 5:30 downtown Cincinnati which  
 6:00 was the worst traffic jam  
 6:30 we were ever in anywhere  
 7:00 anywhere. Day bot - over 90

Today is the Birthday of Anna Kathleen Ertikunys Bell

8:00 Our lovely holiday trip  
 8:30 is over. Came to Greenville  
 9:00 and over to Piqua, hoping to  
 9:30 see West Alexandria but we  
 10:00 were too far north. Ate  
 10:30 lunch beside the expressway  
 11:00 from Toledo to Detroit. No  
 11:30 trouble at the Customs. Ate  
 12:00 dinner at the Melrose  
 12:30 and arrived in Detroit at  
 1:00 7:45. After sweating for  
 1:30 three days we are enjoying the  
 cooler Ontario temperature. Kathleen  
 had a good birthday lots of  
 gifts and money.

SEPTEMBER

Heck. Didn't do any work.  
 Just went to church and  
 sat around the rest of the day.  
 Rod's came to Jack's for drinks  
 and we had Art. Drove to  
 Paris but the Bailys were away.

8:00 Very chilly this morning  
 8:30 - down near the 40 mark.  
 9:00 I'll soon have to cover  
 9:30 my beans from the sky  
 10:00 frost. The red maple at  
 10:30 Edger's garage is showing  
 11:00 quite a bit of color.  
 11:30 Enjoyed my Wednesday  
 12:00 evening at home last  
 12:30 yesterday as it is the  
 1:00 only one I'll have for  
 1:30 months. Next week is  
 2:00 the goddam school board.  
 2:30 Walked out in the east  
 3:00 field at dusk and gazed  
 3:30 over the evening sky -  
 4:00 Venus so bright, Saturn and  
 4:30 Antares well past the

 5:30 west, peering Arcturus - no

8:00 Time off this evening to  
 8:30 send out a bunch of  
 9:00 accounts most of which  
 9:30 are long overdue. That  
 10:00 pick-me-up slice of  
 10:30 bread I eat in the evening  
 11:00 an hour or so before I  
 11:30 start for home is a great  
 12:00 innovation. It saves me

 1:30 tired muscles. Quite cool  
 but have not succeeded to

 little electric heaters are going  
 full blast at home.

- 8:00 Pood out. Just devoured

 9:30 Quite warm - in the high

Today is the Birthday of Dear Aunt Emma - I

8:00 scarcely knew her. About

8:30 all I remember about her

9:00 was that she looked down

9:30 upon "tooth carpentering".

10:00 Well, I look down on it

10:30 too, especially at the end

11:00 of the day when I am

11:30 tired hungry and generally

12:00 fed up. Warm and

12:30 sultry; rain again last

1:00 night. 27 years ago

1:30 to-day - what a day it

2:00 was! No doubt in my

2:30 mind from where and

3:00 when stemmed the little

3:30 tree of poesy. It was a

4:00 rather weak tree and never

4:30 amounted to much -

5:00 probably from lack of proper

8:00 A perfect September 18,  
 8:30 A hurred moon adorned  
 9:00 the morning azure on  
 9:30 high. All around the  
 10:00 cloudless sky all day  
 10:30 hung the haze of

8:00

I was twenty "let's cut it out, fellow" years ago

8:30

today I said the all-

9:00

important say - I do

9:30

for twenty years with

10:00

Anna Kay I have been

10:30

so flattering sweet and

11:00

gay, that I'll repeat

11:30

as on that day, those

12:00

magic words - I do.

12:30

1:00

All changed over to 60

1:30

cycle frequency. X-ray

2:00

is fixed by a kiddy,

2:30

clever man as is the

3:00

engine motor, fluorescent

lights etc. I'm

4:00

simply in seventh

all possible worlds.

8:00 Yes just the three of us  
 8:30 at dinner yesterday but  
 9:00 there was entertainment  
 9:30 enough as Dennis blows  
 10:00 his top frequently and  
 10:30 for slight provocation.

8:00 Last night did it.  
 8:30 The north thermometer  
 9:00 stood at 29 as I began  
 9:30 breakfast preparations.  
 10:00 Everything was white  
 10:30 outside. It even froze  
 11:00 the tender beans under  
 11:30 the canvas. Ah me -  
 12:00 and how we cherished  
 12:30 and nursed those  
 1:00 tender beans planted  
 1:30 at the end of July.  
 2:00 Mostly clear today  
 2:30 with an exceptionally high  
 3:00 barometer 30.08. The  
 3:30 trend is to milder weather  
 4:00 so it may not freeze  
 4:30 tonight - after the damage  
 5:00 is done - dear, dear - all  
 5:30 our lovely glass and  
 6:00 zinnias blackened.

 9:30 so very quiet. The great  
 10:00 Paris Fall Fair - a very fair

TUESDAY

Today is the Birthday of \_\_\_\_\_

8:00

Yes, verily, we received a

8:30

phone call from Erid this

9:00

morning informing us of

9:30

the arrival of Mary

10:00

Eleanor Woods 7 lbs +

10:30

and so beautiful. Now

11:00

I must call on Grandma

11:30

and Grandpa Bailey on

12:00

my way home. A fine

12:30

fall day with fast coloring

1:00

leaves, misty blue sky,

1:30

warm sun warmish, coolish

2:00

air, just about perfect.

2:30

- and I had my dear Fred

3:00

H. to take to Paris. I after

3:30

wonder how foolish I can

4:00

get. Here we were at Eaton

4:30

only about nine miles from

5:00

West alk. and we zoomed

5:30

north giving it the go by.

6:00

However I not my will, but I

6:30

thine - oh thou fateful fate.

just called Jim up at the office and wished him returns - and had a nice little chat. Yab-yok. A cool sunny October day with the bluest of blue skies. Had some of our tender beans last night. Kathleen laboriously picked the pesky little things - I wouldn't have had the patience. Frost promised tonight so I'll have to cover them up again.

Dear me, I forgot to uncover my beans so they are probably smothered. Had to take down two awnings and screens, as Chuck and Co. came to paint the house. Took three screens up to be renewed. And so in the rush I forgot my precious beans. Views awfully beautiful at dusk. A brilliant moon in Aquarius, fast coloring autumnal leaves. The 34 years seem like a mist that rolls away. Mrs R. (Baba) dear sad - down at St. Hyacinth. I raising Cain at Emily St.

The yesterday - perfect October day. Got the three screens (living room, dining room and kitchen) from Dick and redone in plastic to the tune of 9.00. The men were busy at the house painting shortly after eight. A fine day for it and a fine time of year to paint a house outside (so the experts say). Got an appropriate card mailed to the Bails this evening.

not a birthday but an anniversary - the 34<sup>th</sup> for Buggs and Mrs. It is wonderful if they received our card as they have been away all day at Collingwood, Orangeville and intermediate point. Nuala and Ant had arrived just before I did last evening. Today was fair except for clouds which blew up from the east with a cold east blast. Would series day again - I bet on Yorks flew on Milwaukee.

Poor Nuala had to stay in bed all day, so Kathleen and I had to carry on by ourselves at afternoon practice, dinner at 177 Pleasant, and executive meeting at Doug's.

8:00 The fine weather has lasted  
 8:30 well as today was warm  
 9:00 and sunny, and the woods

 11:00 it looks like a change -

The first dull rainy  
day for weeks. Not much  
rain fell, but the sidewalks  
were wet all day and if  
the plowing match got it  
I can imagine the muck

Had to get Dennis up,  
breakfasted and out of the

8:00  
 8:30 Drove to Drumbo ahead of  
 9:00 Pottie and Catherine Cole.  
 9:30 enjoyed their stay over night  
 10:00 at our place. Served them  
 10:30 a good breakfast and  
 11:00 they departed for Urbana  
 11:30 some minutes before I  
 12:00 got away as there was a  
 12:30 pile of dishes to do. Pottie  
 1:00 Ray and I sat around  
 1:30 drinking beer and gassing  
 2:00 till 1:00 A.M. Today  
 2:30 the sun is boggy and  
 3:00 the temperature up to 55.  
 3:30 a grand day to be outside  
 4:00 and burn. Wish I  
 4:30 could tell all my  
 5:00 patients to go to hell and  
 5:30 then shut myself up and  
 6:00 practice and read to my  
 6:30 heart's content.

 9:00 Wednesday afternoon I had

8:00 Bernard today is in  
 8:30 Montebello, P.O. He  
 9:00 leads a nomadic life.  
 9:30 rushing first one direction  
 10:00 then another, but mostly  
 10:30 to the north-east. Tonight  
 11:00 the little ~~an~~ angels and  
 11:30 devils and going from  
 12:00 door to door - hundreds  
 12:30 of them, collecting cheap  
 1:00 candy and homemade  
 1:30 treats. There will be  
 2:00 plenty of toothaches  
 2:30 tomorrow. Very mild  
 3:00 and sunny after the fog  
 3:30 lifted. Kathleen and I  
 4:00 went to practice last  
 4:30 evening in H12. It  
 5:00 performed perfectly.

Today is the Birthday of Little white-haired John  
 8:00 Curiosity has prompted  
 8:30 me to read Barnie's  
 9:00 The admirable Crichton  
 9:30 - a brilliant satire but  
 10:00 through it a wistfulness  
 10:30 that is quite touching.  
 11:00 It reminds me of those  
 11:30 wonderful, improbable or  
 12:00 impossible dreams one has  
 12:30 just before waking, which  
 1:00 one cannot recapture for  
 1:30 the life of time. Very  
 2:00 mild for November and  
 2:30 summy after the fog cleared.

 8:00 Such a day! So many  
 8:30 extractions! What a beautiful  
 9:00 sunny day - up to 60° and  
 9:30 hard I have been shut  
 10:00 in with endless patients  
 10:30 Everybody else (practically)

As dark and as dull and  
as wet as November can  
be. Rained most of the  
day except for a few  
minutes at dusk when  
the low sun lit up the  
sky with a peculiar yellow  
light. The streets were  
lit in a "green way".  
Well, the garage bill  
was big enough - 31.00.  
Almostly labor which  
amounted to only about  
half a day. I should be  
fixing cars instead of  
teeth!

Since I have sung the praises of different pens down through the years, it behoves me to sing of this Parker 51 yet again. It suits me as no pen has ever suited. Perhaps I should buy a tip-top suit and see how it suits.

Den had a holiday today so we were a bit lazy this morning; I did not rise till 7.55.

Dull rainy and mild.

Muala came home last evening sporting a huge rock that would knock your eye out. I don't know how many carrots it is, but it beats all, no girl would turnip her neck at it. It is nearly seven o'clock; I must run up to Cubo for gas. Poor old Tommy died last night.

We will miss our beloved neighbor. What a wonder he was at 85.

Dark windy and rather mild. Muala sat with me at church but after practice disappeared with Art and we saw no more of her. She was to take the 9.00 o'clock train at 9.00.

Rainy and lousy with  
 an east wind. Had  
 both Fred H. and Allan  
 to accompany me to  
 Paris. Poor Elaine,  
 living all alone down in  
 the gloomy Stausseury  
 house — home one of  
 Pat and "Sound" etc.  
 Just got a phone call  
 from Fred saying  
 Aunt Lottie is in  
 financial straits — the  
 home she is in is  
 very reasonable but her  
 meagre funds are not  
 sufficient for the \$90.00  
 per. — according to  
 Uncle Harry.

 "Methinks there is much

 9:00 24 this evening. Strong

8:00 Kathleen said the new

 9:00 wide in the shoulders  
 9:30 so I took it back to  
 10:00 Harry Vise who was  
 10:30 nowise able to give me a

 11:30 have to wait till next

 12:30 Meanwhile he has my  
 1:00 \$20.00. Cold wind and  
 1:30 partly fair. 58 1/2 deg  
 not temp. Quite a thickness  
 of ice on the yards this  
 morning. Fred H. went down  
 with me

A cold dull cheerless day -  
 cheered by a turkey dinner

 had to stay home alone.

Today is the Birthday of Rev. Bill Morrison (what a name!)

- 8:00 Milder with misty
- 8:30 horizon, with Venus
- 9:00 and the young moon
- 9:30 dimly struggling through.
- 10:00 I am supposed to be home
- 10:30 at 6.00 and it is 5.30

- 8:00 may I go over to play with
- 8:30 Kathleen? Yes, go tonight by
- 9:00 all means. Very dark and
- 9:30 rain falling from 2.00 o'clock
- 10:00 on, and very mild - 54.
- 10:30 "Kid brother Harv" Jr. game
- 11:00 as a real good workout

Today is the Birthday of

Nellie Jull Green.  
 8:00 Poor old Nellie - like  
 8:30 Harriet Black has shrunk  
 9:00 considerably in old age.  
 9:30 I wonder how she is.  
 10:00 Nellie, Howard and Alice  
 10:30 all over 70 - creeping  
 11:00 into senility and I never  
 11:30 see them. Dank and  
 12:00 Maimy. Managed to  
 12:30 get out at 6:00 to buy  
 1:00 a light bulb, a mirror  
 1:30 and some poof powder

8:00 Golden with flow

 9:00 tiger cats emerged victorious  
 9:30 seizing the much coveted

 Maude took the 9 o'clock

8:00 A rare day for this time  
 8:30 of year. Perfectly cloudless.  
 9:00 The sun strong from the  
 9:30 bluest of skies but lacking  
 10:00 in warmth. 13° this  
 10:30 morning. Washed my  
 11:00 south window first  
 11:30 time in about 2 1/2 years.  
 12:00 Since the great C. Chester

Today is the Birthday of Edith Parsnips Davis

8:00 Laura Muir turned up at

 9:00 Given who has baby  
 9:30 trouble. Jack wouldn't

 11:00 I don't blame him. I

8:00 This will be short also.  
 8:30 Delivering Mary, delivering  
 9:00 eggs, delivering myself at  
 9:30 the hospital at the delivery  
 10:00 room, getting into the  
 10:30 Santa Claus parade traffic  
 11:00 kept me late for my  
 11:30 first appointment and so I  
 12:00 was in a dither all day.  
 12:30 Soon I will be completely  
 1:00 fed up, call for Mary and  
 1:30 luggage off home.

8:00 Jim tried to come out

 9:00 up finally in disgust  
 9:30 and hid his face behind  
 10:00 some grey clouds. Not  
 10:30 cold - almost thawing.  
 11:00 Brought Fred to Paris  
 11:30 - about my last time  
 12:00 for this year. I have  
 12:30 enjoyed his company as  
 1:00 I could no other minister

 2:30 Two more weeks and

 4:00 a load of Schibbs coal  
 4:30 came today.

8:00 Ah, Himmel - just one  
 8:30 week from today is the  
 9:00 dead line and I have  
 9:30 done not a tap of shopping.  
 10:00 That's right; don't do any  
 10:30 shopping for Christmas  
 11:00 gifts. Wake up Christmas  
 11:30 morning with not a  
 12:00 present bought on a card  
 12:30 signed - you've had  
 1:00 nightmares to that effect.  
 1:30 Try it out and see what  
 2:00 the real thing is like.  
 2:30 Rather mild and dull - all  
 3:00 the snow gone. Kathleen  
 3:30 had a big day yesterday  
 4:00 in Toronto - came home  
 4:30 laden with parcels and

 9:00 enough daylight at noon

 8:30 all night, all day.

8:00 Christmas eve once more -  
 8:30 and it is a picturesque one  
 9:00 but not seasonable. The bare  
 9:30 ground and pools of water  
 10:00 have taken on a dull look  
 10:30 as the temperature has dropped  
 11:00 to below freezing. The sun kept  
 11:30 peeping through most of the  
 12:00 day and now at dusk the  
 12:30 sky is mostly clear and  
 1:00 Venus at maximum brilliancy  
 1:30 is fairly close to the young  
 2:00 moon. The sky couldn't  
 2:30 be nicer for a Christmas  
 3:00 setting. Hope it is clear  
 3:30 when I get home - then  
 4:00 with I say "on a cold and  
 4:30 starry Christmas eve" etc.

8:00 Kathleen and I went to bed  
 8:30 in fairly good time last night,  
 9:00 and as Anala was still out  
 9:30 we could not hang up stockings.  
 10:00 I arose at 7.00 A.M. with the  
 10:30 house quiet and both "children"  
 11:00 heavily asleep, sneaked downstairs  
 11:30 and hung up stockings which  
 12:00 we had spilled and hidden under  
 12:30 our bed. at rise everybody  
 1:00 got up and the hilarious business  
 1:30 of unwrapping parcels began.  
 2:00 The bulk of them across the  
 2:30 road in Jack T.V. room where  
 3:00 their tree was. The western  
 3:30 style turkey dinner with the  
 4:00 two families and Lunner was  
 4:30 an unqualified success. We ate  
 5:00 most of the big turkey. You could  
 5:30 cut any of it with a fork. Punamole  
 6:00 ended the day with everybody  
 6:30 playing except Ben who went

 8:30 we did not wake up till ten to  
 9:00 ten. Dennis got in at 3.30 A.M.  
 9:30 and so we didn't disturb him  
 10:00 till nearly eleven. A substantial  
 10:30 breakfast of cereal, juice, bacon  
 11:00 toast will have to do till  
 11:30 tonight when the big Party  
 12:00 with will take place. Came down  
 12:30 to Paris to collect mail etc. Got a  
 1:00 nice letter from uncle Harry.  
 1:30 Everybody congregated by  
 2:00 6.00 P.M. and we had a  
 2:30 hang up good time with  
 3:00 everybody, and dinner music  
 3:30 for those that are not very  
 4:00 hungry, and other moderate  
 4:30 hit song plays. The piece de  
 5:00 resistance was a ham with  
 5:30 the bone in done as only  
 6:00 Kathleen's ever do them, also  
 6:30 squash, ambrosia, nestle  
 7:00 etc - a wonderful buffet  
 dinner with 13 of us including art.

8:00 We removed the bone  
 8:30 from the ham and put  
 9:00 quite a chunk of meat  
 9:30 in the refrigerator before  
 10:00 going to bed last night.  
 10:30 Colossal dish washing at  
 11:00 which I was slow as usual.  
 11:30 Today was clear and  
 12:00 not cold. Tonight the  
 12:30 young moon and Venus  
 1:00 in barn the sky from  
 1:30 my south wind - even  
 2:00 Venus being clear of the  
 2:30 walnuts. Was just out to  
 3:00 get my Christmas hat from  
 3:30 Harry Wise. Santa, by the way,  
 4:00 was much too good to me, besides  
 4:30 the hat, he fixed my cello (new  
 5:00 bridge, crack glued, and tail gut)  
 5:30 shirt, tie, smelly ~~lotion~~ lotion,  
 6:00 dog mat (not edible) bird book etc.  
 6:30 The Drummer Tosi brought down Blanche  
 7:00 and Sally Lu, and will take back  
 Mary.

8:00 Got home half an hour  
 8:30 earlier than usual last  
 9:00 evening and Kathleen was  
 9:30 alone and home. She really  
 10:00 appreciated it and so did I.  
 10:30 Tonight she is not likely  
 11:00 to be home as she intended  
 11:30 to go to Ayr to watch them  
 12:00 skate. Very dark and  
 12:30 gloomy all day with little  
 1:00 spits of rain. Still mild.

DECEMBER

Overcast and mild. Nuala accompanied  
 us to practice after which we took  
 her over to 177 Pleasant. The three  
 of us ate alone (gracia deus) or thank  
 the lord. Wasted a good evening  
 looking television - Pen Gynst etc.

8:00 The sands of 1957 are  
 8:30 running out. Very curious  
 9:00 to know what happened on  
 9:30 the 29<sup>th</sup> and 30<sup>th</sup> forty years  
 10:00 ago. This page has been lost  
 10:30 out of the book for years -  
 11:00 probably in one of the many  
 11:30 mornings. Fine snow in the  
 12:00 air and dull at first, then  
 12:30 clearing and mild before noon  
 1:00 - afternoon like a spring day  
 1:30 - with not a vestige of the  
 2:00 little snow left at night.  
 2:30 The waning moon on high  
 3:00 whitened the thin patches in  
 3:30 the clouds but was nearly  
 4:00 always obscured as was Venus.  
 4:30 Later the moon paled  
 5:00 wistfully on the scene so  
 5:30 unlike winter.

8:00  
 8:30 Well, it looks like the Arnold  
 9:00 pharmacy is not coming  
 9:30 across with a date book  
 10:00 for 1958, accordingly I will  
 10:30 consult my desk for an  
 11:00 unused one purchased in the  
 11:30 past. I got used to these and  
 12:00 rather like them, although they  
 12:30 do bulk up and take up a lot  
 1:00 of storage room. Mild again  
 1:30 today with wet snow tonight  
 2:00 but melting. Wrote a New  
 2:30 Years letter to Alfred. All  
 3:00 aboard for Prumbo and  
 3:30 seeing the new year safely  
 4:00 in.
